BURNS SENT AGENTS TO INVESTIGATE WHEELER

Chief of Justice Department Secret Service Says He and Daugherty Discussed Having Senator Indicted When He Reported Campbell Was Client.

MILLER TESTIFIES ABOUT LAND FRAUD

Tells of Hiring Daugherty's Former Law Partner to Defend Him; Expected a Small Fine, but Was Assessed \$7500.

By PAUL Y. ANDERSON.
A Special Washington Correspondent of the Post-Dispatch.
WASHINGTON, April 10.—An admission by William J. Burns that he sent three special agents of the Department of Justice to Montana for the purpose of gathering evidence upon which an indictment of Senator Wheeler might be based, and the added admission by Burns that he and Attorney General Daugherty had discussed the possibility of having Wheeler indicted, after the Senator had named the present investigation of the Department of Justice, came as a sensational denouement before the Brookhart Committee today.

It was the Department of Justice, which Wheeler is investigating, that caused his indictment. Daugherty and Burns are the targets of the inquiry. Burns, as director of the Bureau of Investigation of the Department, has charge of all the secret service men. He was responsible only to Daugherty, and, as he testified today, they are old friends, having known each other since boyhood.

The political backdrop from the disclosure that Burns was behind the Wheeler indictment is expected by Wheeler's friends to be terrific. Wheeler himself has charged that the indictment was a "frame-up," engineered by Burns' men. Burns' testimony today contradicted the public statement previously made by Daugherty, that he knew nothing of the plan to indict Wheeler. Burns said they discussed it three or four weeks ago.

The safeguard with which the detective chief made the disclosure left spectators breathless. He answered questions as calmly as if discussing the weather. He was not on the stand five minutes.

A Telephone Conversation.
Wheeler focused attention sharply when he introduced a record of the local telephone company, showing George Logwood, an official of the Republican National Committee, yesterday held a long-distance conversation with Blair Coan, at Great Falls, Mont., where the Wheeler indictment was brought. Wheeler immediately called Burns to the stand and inquired if Coan was one of his men. Burns said he was not but identified him as an employee of the Republican National Committee.

"Do you know that he was sent out to Montana for the purpose of digging up something on me?" Wheeler asked. "I know he has been out in Montana."

"Isn't it a fact, Mr. Burns, that you sent three Department of Justice men to Montana, and that they presented the evidence to the grand jury on which I was indicted?" "I don't know what happened before the grand jury, but I was not there."

"Who ordered you to send those men out there?" "Nobody ordered me. I did it myself."

"How did you come to do that?" "The Postoffice Department called by attention to evidence that it had in connection with your activity. I decided to send the men out there to investigate it."

"How long ago was this?" "Oh, about three or four weeks ago."

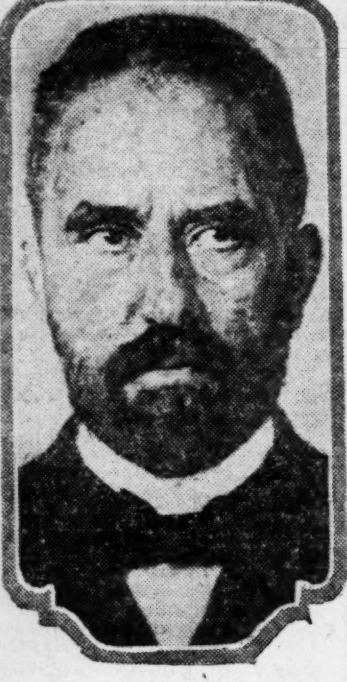

"Did you discuss it with Attorney General Daugherty?" "I did."

"Where?" "In his apartment at the Wardman Park Inn. We talked about it several times. We discussed the report which one of my men made to the effect that you had acted as an attorney for Gordon Campbell."

"And you discussed the possibility of having me indicted?" "I believe so."

TWO MEMBERS OF COMMONS BATTERED IN FIGHT ON FLOOR

Former First Lord of Admiralty Amery and Glasgow Laborite Clash After Rent Bill Debate.
By the Associated Press.
LONDON, April 10.—Lieutenant-Colonel L. C. M. Amery, former first Lord of the Admiralty, and the Glasgow Laborite George Buchanan, went home with battered faces last night after a lively bout on the floor of the House of Commons.

Near midnight, just before the House adjourned, eviction of unemployed tenants was being discussed when Amery referred contemptuously to the Laborites' arguments as "sob stuff."

James Maxton, of the Glasgow Laborite delegation, shouted: "You do not want to hear of this!" "Never mind that swine. He is only a little guttersnipe," the Speaker rebuked the members for their remarks and the House almost immediately adjourned.

In a moment Amery and Buchanan were punching one another's faces. Other Laborites tried to reach the former Minister, but their colleagues held them back and further violence was prevented by peacekeepers who persuaded the principals to leave.

It was the first personal encounter in the House for nearly a year.

NEW ATTORNEY-GENERAL SAYS HIS AIDS MUST GET RESULTS
By the Associated Press.
WASHINGTON, April 10.—Attorney-General Stone is prepared to continue the present Department of Justice personnel and policies until conditions prove that changes are necessary. He contemplates no general housecleaning and has informed his associates that he believes it better to get the work done by men familiar with all details and routine than by bringing in new men.

The attitude of the new Attorney-General, as outlined today at the department, however, is that conditions of failure to obtain results will warrant quick and summary action.

Stone, it was said, believes it is not the Government's function to harass any interest or class, but to bear down heavily with available laws when acts in contravention on the public interest are committed. He purposes, it was said, to deal fairly with "big business" but has called attention of his subordinates to the laws against trusts and combinations in restraint of trade. He also has informed the men under him, it was emphasized, that it is their duty to the Government as their employer and to the people to protect the interest of all concerned and has instructed that they keep to the line in all investigations and prosecutions.

HUGO STINNES, INDUSTRIAL KING OF GERMANY, DIES

Succumbs When Double Pneumonia Develops After Three Successive Operations.

DEATH TO BE FELT IN DEBT PARLEY

He Delighted to Tell How Rich He Was—His Fortune Was Estimated at 1,000,000,000 Marks.

By the Associated Press.
BERLIN, April 10.—Hugo Stinnes, leading figure in German industrial life, died here today.

Following three successive operations, double pneumonia developed, and physicians had said early today that his condition was hopeless.

BERLIN, April 10.—Gathered about his bedside in the fashionable West Sanatorium, Germany's foremost physicians said yesterday there was not the slightest chance for Hugo Stinnes' recovery.

For good or evil his presence will have a disastrous effect on the entire economic structure. For he always has insisted on supervising personally every detail of his interests, so that no man is in a position to succeed him.

Recently he quarreled with his two eldest children because they wanted to take a more extensive role in his operations, and the quarrel was patched up only shortly before his illness.

For good or evil his presence will be missed in the present reparations negotiations. Stinnes was ill two weeks before he went to the sanatorium. He suffered from gall stones, and his physician removed one as large as an egg in the first operation. Inflammation and fever set in. Two more operations were performed by Prof. Julius Bier, probably the Reich's most renowned physician. But the fever continued.

ECCENTRIC STINNES DELIGHTED TO TELL HOW RICH HE WAS

HUGO STINNES was spoken of as the "king" of German industry in sight, and from the peculiar pleasure he found in confiding the size of his fortune to all who would listen, the details of his vast industrial enterprises, and the extent of his mining, shipping and newspaper holdings were never left very much in doubt.

In addition to owning outright scores of more, Stinnes and his sons in Berlin, Hamburg and Bremen, Stinnes shared control of the iron and coal industry of Germany with a friend, August Thyssen, and a few others, and occupied a dominating position in the inland navigation of that country. He also directed several big ocean shipping concerns, owned most of the potato deposits of Central Europe, and in 1920 was reported to have purchased 50 newspapers, as well as several paper mills and pulp factories.

Before the war Frau Bertha Krupp was said to possess the largest personal fortune in Germany. She paid taxes on property worth nearly 300,000,000 gold marks. At that time Stinnes' fortune was estimated at 20,000,000 marks, which, according to present calculations, increased during the war and the revolution to more than 1,000,000,000 marks.

Great Industrial Organizer.
Although Stinnes proved himself to be perhaps the greatest industrial organizer Germany ever produced, he was never graduated, so to speak, from the working class. He had the appearance and bearing of a workman, and could go about in the clothes of a foreman or a miner without attracting attention. He was once described as like a piece of coal wandering about among his own coal mines.

4 EGAN GANGSTERS AUTO SEIZED IN THIRD PHONE TIP ON SCHOLLMMEYER

Robbery Inquiry

Ray Renard One of Those Being Hunted—Bonds of Prisoners Are Fixed at \$60,000 Each.

Four Egan gangsters are under arrest, and two others are being sought, as the result of continued investigation by Postoffice inspectors into the robbery of an armored mail truck at Fourth and Locust streets, April 1, 1923, in which \$267,374 cash and negotiable industrial bonds, and \$2,139,900 in unsigned Federal Land Bank bonds, were taken by five men.

Ray Renard, one of those being hunted, is a former inmate of the Missouri State Penitentiary, and was arrested Tuesday, and has since been held by the police with the entry, "suspected—counterfeiting," though they were not in fact suspected of that offense. Louis (Red) Smith and David (Chippy) Robinson were arrested today. Ray Renard and Fred (Cotton) Eppelheimer and being sought. All six have been indicted by the Federal grand jury.

The four men under arrest were taken into court this afternoon, and Judge Faris fixed their bonds at \$60,000 each. The men had not obtained lawyers, and Robinson complained that the bond requirement was "awfully big," to which Judge Faris replied that the offense was of similar magnitude.

Horace L. Pyper, special prosecutor in the cases, had asked that the bonds be fixed at \$75,000 each.

Gangsters Seek Renard.
It was reported today that certain gangsters have offered a reward for the apprehension of Renard, "dead or alive," in the belief that he has jumped bonds amounting to \$34,000, a \$40,000 bond returnable in Springfield, Ill., and a \$14,000 bond returnable in St. Louis. His appearance in these bonds is not yet due, but the St. Louis bond will be called within a short time, as the Federal Court of Appeals has affirmed his conviction.

Two Convictions.
"Whitely" Doering and David Weisman, also Egan gangsters, were convicted last October of participation in the mail truck robbery. Doering, in whose Richmond Heights bungalow the Land Bank bonds, and about one-half the other bonds and cash, were found, was sentenced to 30 years in prison, and Weisman to 25 years.

Doering obtained release on \$30,000 bond, and Nov. 18 he was shot in an affray at a roadside near Marion, Ill., dying the next day. Doering was a former convict, arrested on suspicion soon after the robbery, and his home near Creve Coeur Lake was searched. A saved-off shotgun, revolver and a .38 Smith & Wesson were found in the house, but no evidence connected him definitely with the crime and he was released May 5. It was stated at that time that the charge against him was that he had been a visitor at the Jolynson flat and that he paid Mrs. Jolynson's bills but denied knowing anything about the stolen property found there. Four additional warrants were issued against him yesterday and he was released after furnishing four additional bonds of \$1500 each.

In conversations with detectives Schollmeyer has indicated that he does not know the woman who has been telephoning tips about him. However, Mrs. Jolynson, in whose flat part of the loot was found, has said that she believed the woman tipster probably is someone with whom Schollmeyer had fallen out. Schollmeyer is married and has two children.

LITTLE HATCHET STORY WORKS AS IN G. W.'S DAY

Woman Admits Chopping Limbs from Neighbor's Plum Tree But Is Freed.

The story Mrs. Minnie Gutkohl, 69 years old, of 6419 Bradley avenue, told in Court of Criminal Correction yesterday, of how she chopped a branch from her neighbor's plum tree with her "little hatchet," rang with truth akin to that of the original hatchet story, and met with similar reward.

Mrs. Gutkohl was dismissed from further prosecution on a charge of malicious destruction of property by Provisional Judge Grodzky, who liked the hatchet story.

Mrs. Gladys Brazell, of 6427 Bradley avenue, owner of the plum tree, testified Mrs. Gutkohl maliciously lopped off a branch of her plum tree. The defendant was then called to the stand and admitted using her "little hatchet" on the Brazell plum tree, but not maliciously. The plum tree spread a number of its branches over on the Gutkohl property, and when one of the plum tree's offshoots interfered with the erection of a fence, Mrs. Gutkohl had used the "little hatchet."

"So you used your little hatchet like George Washington," Judge Grodzky remarked. "Well, I believe you are further acting like George did when questioned about the cherry tree. I'll reward your truthfulness by dismissing the case."

The judge's decision pleased most everyone in the courtroom but Mrs. Brazell, who had employed special counsel to prosecute Mrs. Gutkohl.

INTERCITY SPAGHETTI-EATING CHAMPIONSHIP AT STAKE

Joe Casanova of St. Louis to Meet Weaner of 1924 Kansas City Crown.

KANSAS CITY, Mo., April 10.—The spaghetti-eating championships will be decided simultaneously tonight at the Italian-American restaurant, Fifth and Walnut streets.

One is the St. Louis-Kansas City Intercity title. The other event is the eat-off of a dispute over the city supremacy.

The tournament brings together Joe Casanova, supreme spaghetti stevedore of St. Louis; Walter Raddazzo, wearer of the 1924 Kansas City crown, and Frank Ruffolo, 1923 champion and pretender also to the 1924 title.

On the credit side is an unexpectedly strong insistence by the experts on economy of the Reich, together with an implied condemnation of any further "separate action" against Germany by any ally without consulting the others. In leakage from French sources during the last few days this feature of the report has not been revealed, which makes it all the more welcome now.

It is also felt an important step forward has been made in stating that German payments include all extra, such as occupation costs. The technical details of the bank of issue scheme have come in for praise.

Attitude of Financiers.
The financial authorities here are chary of expressing an opinion as to possible British participation in a loan to Germany, but they express gratification that it is clearly intended to attempt to mobilize large capital sums for reparations by selling German obligations in world markets at present. In political circles great stress is placed on the fact that Charles G. Dawes and Owen D. Young, the American experts, concurred in recommending inclusion of an American delegate along with the allied neutral and German delegates on all of the proposed boards of control.

It is assumed by British officials that this step was taken with the concurrence of the Washington administration, and it is hoped it heralds American co-operation in solving pressing European problems. The Premier, I am told, said he believes this is the most encouraging feature of the report.

When these things are said and the fullest tribute has been paid to the fact that this report is the first common sense treatment of a problem that hitherto has been the football of world politics, there still remains the fundamental skepticism of most authorities here as to the possibility of ever getting large reparations out of Germany.

No Incentive to Pay.
The following are some of the points made to show that the report, while a brilliant document, is not workable. This judgment does not hold that a better report is possible.

First of all there is sharp criticism that the committee was not able to fix a total indemnity. This was put on the ground that the lack of a total figure will give the German no incentive to pay, especially since the committee adopted the French scheme for extra payments if Germany becomes more prosperous.

GERMANS PLEASED WITH PORTIONS OF EXPERTS' REPORT

"There Is Much That Is Acceptable, Much That Is Not," Says Stresemann; Action Awaits Election.

BASIC QUESTIONS DODGED, LONDON FINANCIERS' VIEW

How Germany Can Create Trade Balance to Pay Reparations Is Not Answered—Disappointment Over Fixing Total to Pay, Which Would Be Incentive.

By JOHN L. BALDERSTON.
London Correspondent of the Post-Dispatch and New York World.
Copyright, 1924, by the Press and Publishing Co., the New York World and the Post-Dispatch.
BERLIN, April 10.—Foreign Minister Stresemann's first reaction upon receipt of the reparations experts' report was this:

"There is much that is acceptable and much that is not in the experts' report, at first reading. The important point is that it forms a basis for discussion. The chief obstacle, I find, on a hasty reading, is the question of control commissions for in practice controls have always proven a source of great difficulty."

The leader of the Reich's foreign policy summoned the chief editors of German newspapers for a conference to ask them to be cautious in their criticism of the plan until the Government had formulated its policy.

From statements to the Post-Dispatch and New York World by Minister of the Interior Jarres, the Reichsbank president, Hjalmar Schacht, and Stresemann, it is apparent that Germany is making the first step up the path of acceptance, although the path will be a long one.

Discussing the Micum contracts with the French, Stresemann said that the experts' report will read to see whether the plan provides a way out of the undoubtedly burdensome agreement. If it does not, Germany is prepared at the last moment to renew for another month, and then to await the outcome of the negotiations over the experts' plan.

Pleasantly Disappointed.
"Pleasantly disappointed" was the expression used by Jarres in describing the Cabinet's reaction to the experts' report. "It is not so bad as we thought it would be," continued Jarres, who had been stating publicly that neither he nor other members of the Cabinet would sign an agreement that Germany could not fulfill.

"Of course, without a detailed study, we cannot give a detailed opinion. But the first reading leads to—well, pleasant disappointment."

Last night's Cabinet session, described as a "theoretical consideration" of this report, since, as the Post-Dispatch and New York World have pointed out, the present Government neither will accept nor reject the plan. Under the Constitution, the new Reichstag, to be convened after the May 4 elections, has the power to annul the Cabinet's decision.

"This technical consideration alone would prevent immediate action, and the uncertain trend of the new election is another factor disquieting Stresemann, even were he so minded, from reaching a decision."

Thinks Payments Too High.
"Mr. Schacht is pleased with the said bank's scheme. But he protests against the size of reparations payments demanded."

"The individual figures are unbearable for German industry," he said, "but it is noteworthy that this is the first effort to take the reparations problem out of the poisonous atmosphere of politics."

The Cabinet members do not believe that the Reparations Commission will call on them to accept, knowing that their decision can be reversed by the new Reichstag. It is significant that the German national party leaders, who usually howl at the mention of payment, are making cautious statements about the experts' report. They believe they will form the Government, and they are prepared to accept the plan. They do not want

Warns Middle-Aged Women to Check High Blood Pressure

Thousands of women at times are in danger of high blood pressure. It is caused by poisonous waste accumulating in the system or the weakening of one or more organs. This forces the heart to do more work and raises blood pressure. The symptoms are dizziness, shortness of breath, head pains, flushed face, nervousness or sleeplessness. High blood pressure must be treated and stopped for everyone knows it brings on Bright's disease, apoplexy and often sudden death. It is too dangerous and quick acting to go without heeding its symptoms.

Norma is a doctor's prescription for high blood pressure that has been used with great success, and is now sold by Wolff-Wilson, Judge & Dolph, Enderle and Johnson Bros. Drug Stores, and good druggists everywhere.

Being a purely vegetable medicine it contains no habit-forming drugs, is harmless, and works in such a way that it drives out waste matter, lessens the duty of the overtaxed heart and reduces blood pressure swiftly and safely. Often one bottle brings great relief. Get a bottle of Norma today and free yourself of life-shortening high blood pressure.

18 MONTHS FOR 'LAWFUL LARCENY'

Clay L. Schroeder Scored by Judge Davis in Passing Sentence—Two Others Fined.

Federal Judge Davis today characterized Clay L. Schroeder as the "master mind" in the series of merchandise frauds perpetrated in St. Louis and known as the "lawful larceny" cases, and sentenced him to 18 months in the penitentiary on a plea of guilty.

Schroeder pleaded guilty on three counts and was sentenced on each, the sentences, however, to run concurrently. His cousin, John J. Schroeder, and Ben DeWoskin, said to have been his "tools," were fined \$250 each on similar pleas.

When the case was called, Post-office Inspector Goshe declared Clay L. Schroeder devised the scheme to defraud by buying merchandise on credit from mercantile establishments throughout the country and then disposing of them in his three stores at auction sales for a small part of their actual sales value. Goshe declared Schroeder, to shield himself, got his two confederates into the business and used their names in purchasing goods.

"The information I have indicates that this man is the master mind in this entire series of merchandise frauds," Judge Davis said in passing sentence. Edward (Red) Allen and Harry Trippett, charged in similar indictments, were arraigned yesterday, pleaded not guilty and secured a continuance until the next term of court. Several of their confederates have entered pleas of guilty heretofore and have paid fines ranging from \$500 to \$1500. Schroeder is the first sentenced to prison.

DENEEN HOLDS SLIGHT LEAD OVER M'CORMICK

Legal Contest to Determine
Senatorial Nominee in Illi-
nois a Possibility.

By the Associated Press.
CHICAGO, April 16.—Former Gov. Charles S. Deneen's lead over Senator Modell McCormick in the Republican senatorial race was cut to 1929 in returns from Tuesday's Illinois primary received this afternoon. The vote in 2245 precincts: Deneen, 231,699; McCormick, 226,676. This narrow lead made the result more doubtful than ever, with greater indications of a judicial recount.

The reduction of the Deneen lead was a result of both returns from an additional 189 precincts down-State and recalculation of previous returns. Only 12 precincts in Cook County are missing.

When complete returns were received from St. Clair County McCormick showed a gain of 1369 in the tabulation. He lost the county but the final figures, as compared with meager returns received before, gave him this advantage.

Possibility of a legal fight appeared today when it became known that the McCormick forces had retained counsel to take charge of their interests and Deneen managers notified their agents in the missing counties to watch any moves before local canvassing boards. Reports were received that several precinct canvassing boards had sealed up ballots and tally sheets and delivered them to County Clerks without reporting the vote counts.

Coolidge Majority 150,000.
Indications that the final majority of President Coolidge over Senator Hiram Johnson for the Republican presidential preference would amount to close to 150,000 were given in returns from all but 882 precincts. Reports from 4783 precincts gave Coolidge 432,681 and Johnson 282,677.

The lead of Gov. Len Small over State Senator Thurlow G. Easington for the Republican gubernatorial nomination increased when downstate precincts reported. With 5122 precincts heard from, Small has a lead of 45,494.

The Republican contest for the Attorney Generalship, split on the issue of the Small-Easington gubernatorial contest, was won by Oscar Carlstrom, supported by Gov. Small, by about the same margin the Governor had on the basis of 4758 precincts, which gave Carlstrom 218,885, and Attorney General Edward J. Brundage, who opposed Small, 271,267.

McAdoo's Delegates Rejected.
More than 190,000 votes were cast for William G. McAdoo, unopposed for Democratic presidential preference, but delegates pledged to him were rejected in favor of an unrestricted delegation to the national convention.

A lead of 2 to 1 over Lee O'Neill Browne, who favored amending the Volstead act, was maintained by Judge Norman L. Jones of Carrollton for the Democratic gubernatorial nomination. Reports from 3658 precincts gave Jones 126,248; Browne, 67,494; Thomas, 17,879; Keller, 18,312; Forchuck, 19,545.

The nomination of Col. A. A. Surague, Democrat, for the United States Senate, was conceded last night.

Women Candidates Fare Well.
Women candidates generally fared well in the primary. Incomplete returns indicate. Winifred Mason Huck, candidate for the Republican nomination for Congresswoman-at-Large, was an exception. Her opponents, Henry R. Rathbone and Richard Yates, leading her by more than 75,000 votes each. Mary Ward Hart, one of the Democratic candidates for Congresswoman-at-Large, at a 160-to-one lead over her opponent.

Mrs. Katherine Hancock Good, wife of Prof. John Paul Good of the University of Chicago; Mrs. Florence Fifer Behrer of Bloomington, daughter of former Gov. Fifer; and Mrs. Lottie Holman O'Neill of Downers Grove, were given Republican nominations to the State Legislature. Mrs. Grace Murray Meeker was picked by Republicans of the Ninth Congressional District as an unrestricted delegate to the national convention.

Mrs. Anna L. Smith, as delegate-at-large, and Mrs. Kellogg Fairbank, as unrestricted delegate from the Ninth Congressional District, were selected by Democratic voters.

All Chicago Congressmen who were candidates to succeed themselves were re-nominated, incomplete returns indicate. William Hale (Big Bill) Thompson, former Mayor of Chicago and chief political ally of Gov. Small, headed a list of five for district delegate to the Republican national convention from the Ninth District.

"Women Only" Cars Abandoned.
CHICAGO, April 16.—Men and women will never be entirely segregated in Pullman sleeping cars, despite the success of "stag" Pullmans now operated between Chicago and New York. For women refuse to ride in cars for "women only." This is disclosed in the announcement of the Chicago & Alton Railroad that it would be compelled to abandon, for lack of patronage, the "women only" cars which it has been operating for two months between here and St. Louis.

SENATE DEMOCRATS OFFER TAX CUT PLAN

Believe Proposal for 2 Per Cent
Normal Rate and 40 on Sur-
tax Will Win Insurgents.

By the Associated Press.
WASHINGTON, April 10.—The
new revenue bill was formally re-
ported to the Senate today, and
along with it was presented a new
Democratic tax plan carrying an
income tax schedule somewhat
similar to the Longworth plan
adopted by the House and turned
down by the majority of the Sen-
ate Finance Committee.

The Democratic proposal, which
its sponsors believe will have the
support of the Republican insur-
gent group, carries a maximum
surtax rate of 40 per cent on in-
comes in excess of \$500,000, as
compared with the maximum of 25
per cent on incomes in excess of
\$100,000 in the Finance Committee
bill.

Normal income tax rates pro-
posed in the Democratic plan are
2 per cent on incomes up to \$4000;
4 per cent on incomes between
\$4000 and \$8000, and 6 per cent on
incomes above \$8000. All heads of
families, irrespective of the amount
of their income, would be given the
present exemption of \$2500. No
other change in the exemptions is
proposed.

Senator Simmons of North Caro-
lina, ranking Democrat on the Fi-
nance Committee, presented the
Democratic substitute just after
Chairman Smoot had brought in
the majority report of the commit-
tee and had announced that he
probably would call the bill up for
consideration next Wednesday. It
would be useless to consider it be-
fore then, he said, as Senators
would not have time to sufficient-
ly inform themselves of its pro-
visions.

In comparison with the Senate
and House surtax schedules the
Democratic plan would provide
lower rates on the smaller incomes
up to about \$50,000. On incomes
between that amount and \$80,000
the tax would be about the same,
while on incomes over \$80,000 the
Democratic rates would demand
more taxes.

The revision of the income
bracket to which the rates would
apply would make an entirely dif-
ferent average of tax payments all
the way up. Senator Simmons in
his plan has named the exact
amount of tax which would be due
on each income, simplifying the
computation of the surtax. As an
example, on an income of \$50,000,
the Democratic plan would call for
a surtax of \$3540 plus a tax of 18
per cent on the amount of income
in excess of \$50,000, and not in ex-
cess of \$52,000. The total normal
and surtax which would be paid
under the Democratic plan on an
income of \$50,000 is fixed at
\$137.50, whereas as under the
Mellon rate in the committee bill
\$657.50 would be paid on such an
income. The House bill would have
decanted a total of \$6190 on a
\$50,000 income.

Simmons predicted the schedule
as agreed to by the Democratic
members of the finance committee
would be supported by all but two
or three of the Democrats in the
Senate.

SENATE TO GET BONUS BILL REPORT WITHOUT DELAY

Chairman Smoot Predicts Agree-
ment on Measure Similar to
One House Passed.

By the Associated Press.
WASHINGTON, April 10.—Con-
sideration of the soldier bonus bill
was put over today by the Senate
Finance Committee to Saturday
morning, when Chairman Smoot
predicted agreement would be
reached on a bill similar to that
passed by the House.

Democrats of the committee
asked time today to give further
study to the bill which the Re-
publicans have approved. It is
expected Democrats will propose a
full cash payments option in the
measure which now carries pro-
visions for cash payments to vet-
erans not entitled to more than
\$50 in adjusted service compensa-
tion and 20-year endowment life
insurance policies to others.

Chairman Smoot made public
today revised estimates as to the
cost of the bill, passed by the
House, on the basis of new figures
submitted by the Army, Navy and
Marine corps, of the number en-
titled to benefits.

H. P. Brown, Veterans' Bureau
actuary, estimated the insurance
policies would cost the Government
\$2,202,467,420, spread over a pe-
riod of 20 years.

Meanwhile, Chairman Smoot in-
troduced in the Senate the tax re-
duction bill ordered reported by the
committee Tuesday.

The revenue bill as placed be-
fore the Senate today carried the
Mellon income tax rate schedule,
the provision for a 25 per cent re-
duction in the income taxes of 1923,
payable this year, a 25 per cent
reduction on earned incomes up to
\$10,000, and repeal or reduction of
many of the excise taxes.

In addition to the major
changes announced by the Finance
Committee as made in the House
bill, the printed copy of the mea-
sure showed an amendment in-
structing the Commissioner of In-
ternal Revenue not only to make
public each year the names and
addresses of income taxpayers as
provided now, but to include the
amount of tax paid by and the re-
funds made to each taxpayer.

"TIZ" GLADDENS SORE, TIRED FEET

"Tiz" makes sore, burning, tired feet fairly dance with delight. Away go the aches and pains, the corns, callouses, blisters and bunions. "Tiz" draws out the acids and poisons that puff up your feet. No matter how hard you work, how long you dance, how far you walk, or how long you remain on your feet, "Tiz" brings restful foot comfort. "Tiz" is wonderful for tired, aching, swollen, smarting feet. Your feet just tingle for joy; shoes never hurt or seem tight. Get a box of "Tiz" now from any drug or department store. End foot torture forever—wear smaller shoes, keep your feet fresh, sweet and happy.

Be Careful What You Wash Your Child's Hair With

If you want to keep children's hair in good condition be careful what you wash it with.

Many soaps and prepared shampoos contain too much free alkali. This dries the scalp, makes the hair brittle, and is very harmful. Multifid coconut oil shampoo (which is pure and entirely greaseless) is much better than anything else you can use for shampooing, as this cannot possibly injure the hair. Simply moisten the hair with water and rub it in. Two or three teaspoonfuls will make an abundance of rich, creamy lather, and cleanse the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy, wavy, and easy to manage.

You can get Multifid coconut oil shampoo at any drug store. It is inexpensive, and a few ounces will last for months.

INGROWN NAIL

How to Toughen Skin so Toe Nail Turns Right Out

A few drops of "Outgrow" upon the skin surrounding the ingrown nail reduces inflammation and pain, so toughens the tender, sensitive skin underneath the toe nail, that it cannot penetrate the flesh, and the nail turns naturally outward almost over night.

"Outgrow" is a harmless antiseptic, manufactured for chiropodists. However, anyone can buy from the drug store a tiny bottle containing directions.

STOP ITCHING SKIN

Zemo, the Clean, Antiseptic Liquid, Gives Prompt Relief

There is one safe, dependable treatment that relieves itching, torture and that cleanses and soothes the skin.

Ask any druggist for a 35c or 65c bottle of Zemo and apply it as directed. Soon you will find that irritations, Pimples, Blackheads, Eczema, Blisters, Ringworm and similar skin troubles will disappear. Zemo, the penetrating, antiseptic liquid, is all that is needed, for it banishes most skin eruptions, makes the skin soft, smooth and healthy. Zemo Soap, 50c—Zemo Ointment, 50c.

ACQUITTED OF LEAVING AUTO ACCIDENT SCENE

Charles Ikemeyer, 23, Repudiates Admission He Drove Car That Struck Woman.

Despite testimony of three witnesses that he admitted being the driver of an automobile which struck Miss Marie McCarthy, 1613 North Nineteenth street, at Cass and Blair avenues, on Dec. 24 last, a jury in Circuit Judge Falkenberg's court yesterday acquitted Charles Ikemeyer, 23, a musician, of 4035 Utah place, of a charge of feloniously leaving the scene of injury.

The license number of the car which struck Miss McCarthy was turned over to police, who arrested Ikemeyer at his home. The defense at the trial commented on the absence from court of the man who originally noted the number and charged the police were trying to "make" a case at Ikemeyer's expense.

Leut. Albert Wetzel testified Ikemeyer, when arrested, first denied driving the car which fled from the scene, then admitted he had, and explained he thought Miss McCarthy was not injured. Patrolman George L. Roemann testified to a conversation in which Ikemeyer admitted a part in the collision. Miss McCarthy testified that Ikemeyer, accompanied by his bondsmen, John H. Hines, Republican committeeman, visited her home the day after the collision and Ikemeyer expressed regret that his car had hit her.

Ikemeyer and his brother, John, and a friend, J. J. Haley, 2929 Greer, who were passengers in his car on Dec. 24, denied it struck anybody. Ikemeyer admitted calling at Miss McCarthy's home, but said he merely expressed regret for her injuries and did not confess responsibility. Commenting on this visit, Assistant Circuit Attorney Bosworth told the jury "it looks like the defense tried to 'put the fix' on this case."

"MOTOR DOPES" DISCUSSED AT PETROLEUM MEET'S SESSION

Means of Eliminating "Knock" in Auto Engines Becoming Big Factor in Industry.

"Motor Dopes" is becoming an important factor in the automotive industry. It was the main topic at yesterday afternoon's session of the National Petroleum Marketers' Association at Hotel Statler.

The delegates mostly sought information about motor dopes. They started the dope debate to ascertain if one recently marketed brand was without equal and learned that there are several ways of making gasoline change its character in an automobile engine.

They were informed about two chief varieties of motor dopes—the antiknock brand, which makes the interior of the combustion chamber forget that it is full of carbon, and the cleaning variety, for which is claimed ability to remove carbon, and hence ultimately eliminate the knock.

Then there is a subdivision of the main brand which claims increased mileage as well as being an antiknock. The discussion revealed there are about a dozen different dopes on the market.

The thing started yesterday when the representative of the recently marketed brand, which has a test engine in the Statler ballroom, was reported to have refused to test other than his own dope. He denied this. In fact, he had tested a couple of solutions, and said two of the samples he tested were as good as his own, one even developing more power.

WORDEN (ILL.) MAN OBSERVES HIS HUNDRETH BIRTHDAY

Nearly 100 Relatives Join Curt Heinrich Brunnworth in Celebration.

Curt Heinrich Brunnworth of Worden, Ill., yesterday celebrated what is said to be his 100th birthday. Nearly 100 relatives, of whom 83 are direct descendants, gathered for the occasion. Among them were the remaining seven of his 12 children, 45 grandchildren, 35 great-grandchildren and two great-great-grandchildren.

Brunnworth, a native of Prussia, came to this country in 1859 in a sailing vessel that took three months to make the trip. He went to work on a farm near Collinsville, later acquired land of his own and remained a farmer all his active life. Until a year ago, when a severe fall affected his eyesight, he took daily walks of half a mile from the home of a daughter with whom he resides, to Worden's business section. His general health is good.

Brunnworth attributes his long life to "keeping close to the soil, regular, simple habits and good, hard work." He still smokes the cherry pipe with the china bowl he has used many years.

German Defender of Franklin. By the Associated Press.

BERLIN, April 10.—Benjamin Franklin has a defender in F. M. Feldhaus, who renounces efforts of certain German scientists to prove that Franklin was not the discoverer of the lightning rod. He declares that Franklin antedated the Moravian priest, Dvornik, by two years in his electrical discoveries and was such an original investigator that he should not be compared with Dvornik "any more than Raphael should be compared with a whitewasher."

Rebel Ban on Irish Games.
By the Associated Press.

DUBLIN, April 10.—In a statement issued yesterday Patrick Rutledge, "acting President of the Irish republic," calls upon the people of Ireland and every member of the nation to refuse to aid in the national games to be held in Dublin in August. The statement says it is proposed to hold the games "while the republic is struggling for existence and President de Valera, with Finance Minister Stack and 1200 soldiers of the republic are being held captives in military prison under inhuman conditions."

UNOFFICIAL RETURNS PUT IRWIN IN LEAD

Has Plurality of 204 Votes,
Over Kneeder in East Side
Congressional Primary.

Complete unofficial returns from the Twenty-second Illinois Congressional District, available today, give a plurality of 204 votes to Dr. Edward M. Irwin of Bellevue over former Mayor R. Guy Kneeder of Collinsville, in the race for the Republican nomination for Congress to succeed Congressman Edward E. Miller of East St. Louis.

The close vote has centered attention of East Side politicians on the race, and the official count in the five counties in the district, if not a contest in court, will be required to determine who won the nomination.

Unusual Race.
The race was unusual from the beginning. Kneeder was brought out by former Congressman William A. Rodenberg, a Republican leader in the district for many years. The support of Rodenberg, and his chief lieutenant, Congressman Miller, was pledged to Kneeder.

Then Dr. Irwin, who had been chairman of the St. Clair County Republican committee and Rodenberg's political ally for nearly 30 years, announced for the nomination. The Republicans in the district were split and the fight was to a finish.

Kneeder carried his county, Madison, by 5315, and carried Washington, 287, and Bond by 571. Irwin carried his county, St. Clair, by 5425 and Monroe by 44, giving him total pluralities of 5470 as against 5176 for Kneeder.

WALSH PROPOSES LAW ON PARTY CONTRIBUTIONS

Montana Senator Would Prohibit Gifts From Those Seeking to Create Obligation.

WASHINGTON, April 10.—Amendment to the election laws to prohibit payments of deficits for national political organizations or candidates by "groups or individuals seeking to obligate political parties" was proposed today in a resolution by Senator Walsh (Dem., Massachusetts).

The Public Lands Committee, which is conducting the oil inquiry, would be called on to frame amendments, or to draw new statutes that would have that effect and also would require semiannual statements from each party as to contributions and expenditures.

FOUR WOMEN IN CITY COUNCIL

In Upper House at Kansas City—Democrats Control Lower.

KANSAS CITY, April 10.—Only a Democratic controlled Lower House of the City Council, disturbed the joy of Republican workers today. The Democrats Tuesday elected nine of the 16 Lower House Aldermen, thus obtaining a working majority of one. In the Upper House, the Republicans elected all of their nine candidates and there are seven Democratic Aldermen who will hold over.

Whether a Democratic Lower House of the council can block the Republican program effectively was a matter of considerable discussion today among leaders in both parties. The possibility of a woman "bloc" in the Upper House also was discussed. After April 21 there will be four women in the Upper House. Two of these, Mrs. Maie Jones Egan and Mrs. Rose Ludlow, were elected by Republicans Tuesday. The two others, Mrs. Emma L. Longan and Mrs. Margaret Shepard, were elected by the Democrats two years ago and hold over.

Italians Lead in Naturalization.
By the Associated Press.
WASHINGTON, April 10.—Naturalization papers were granted to 12,294 aliens in the United States during February. The Labor Department, in making public the figures today, announced that Italians led the list with 2549. Poles were second with 2149, British third with 1972, and Russians fourth, with 1199.

JOHNSON'S HOPE FOR NOMINATION IN TOTAL ECLIPSE

Collapse of Californian's
Boom Marked by Attendance
of Only 7 When He
Addresses Senate.

TALK OF LOWDEN
FOR VICE PRESIDENCY

President Gives Thought to
Platform—Sentiment for
Going Whole Way Toward
Conservatism.

By CHARLES G. ROSS,
Chief Washington Correspondent of
the Post-Dispatch.

WASHINGTON, April 10.—The race for the Republican presidential nomination—if it can be called a race—is all over but the shouting. Mr. Coolidge has rounded third base and is sliding for home. If he gets all the delegates from Michigan, which went for him against Johnson in Monday's primary and from Nebraska and Illinois, both of which likewise turned down the Californian on Tuesday, the President will have 525 delegates, or only 30 less than the number necessary to a choice in the nominating convention.

Johnson may pick up a scattering of delegates from the three states named, but in no event can he retard, in any appreciable degree, the President's progress toward the nomination. The gap is being rapidly shortened, and a few more days will see it closed. The prediction, made some time ago by William M. Butler, the President's campaign manager, that April 22 would find the President with 425 delegates, or 20 more than the number required total, seems in a fair way to be fulfilled.

Nothing could have been more significant of the total collapse of the Johnson boom than the scene in the Senate yesterday afternoon during a speech by the Californian on the pending immigration bill. There was a time when Johnson could count upon a fair attendance of Senators whenever he took the floor. Yesterday, at the height of his speech, there were just seven Senators in their seats, and most of these were reading newspapers or writing.

Newspaper men desiring to interview Johnson on Tuesday's primary results sent a request to the Senator to come to the corridor. He replied that he could not leave the floor while the immigration bill was pending. The same bill has been pending for a week, during all of which time the Senator has been out on the stump.

Now that Mr. Coolidge is virtually the nominee of the Republican party for the presidency, he can turn his attention to such minor matters as writing his platform, casting about for a suitable running mate, and picking the temporary and permanent chairmen of the Cleveland convention and the chairmen of the National committee to manage his campaign.

In circles close to the President, a sizeable boom has sprung up for former Gov. Frank O. Lowden of Illinois, for the vice-presidential nomination. Lowden would qualify, say the boomers, as a "dirt farmer" candidate since he operates one of the biggest farms in the Middle West. The real heartiness of the movement for Lowden is the growing feeling of the Coolidge people that the Republican campaign of this year, to have any chance of success, must be an unqualified appeal to the Conservative voters of the country. The President showed how his own mind is running when he turned down Judge Kenyon for the Attorney-Generalship.

Would Go the Whole Way.
It seems to be the dominant theory in the party just now that nothing is to be gained by "throwing a sop" to the radical wing. If there ever was a chance to placate the radicals, that chance has vanished, and the party might as well go the whole way toward conservatism—put all its eggs in the conservative Coolidge basket, so to speak. Such is the reasoning which seems likely, at this time, to guide the councils of the party at Cleveland. Lowden would fit admirably into the campaign picture as it now is being visualized.

The Senate contingent and the National Committee crowd are tilting at each other. In the opinion of committee spokesmen, the country is sick of the Senate and would like to have the speakers' platform at Cleveland ornamented and the "keynote" sounded by other Republicans than Senators. This is one of the problems facing Mr. Coolidge for decision. Another is that of choosing the chairman of the National Committee. John T. Adams has announced his intention to retire, but there is a disposition among some of his colleagues to try to keep him on the job. C. Bascom Simpson, the President's secretary, appears to be angling for the place, in the belief, perhaps, that it would be a stepping stone to the Postmaster generalship. The President has not indicated a preference.

**NAVY TO MAKE NO LEASES
UNLESS SECRETARY APPROVES**

Wilbur Announces Grants or Con-
tracts Must Have His Per-
sonal O. K.

By the Associated Press.
WASHINGTON, April 10.—A
new naval oil policy, designed to
safeguard the Government against
any such leases as those granted
under former Secretary Denby was
announced today by Secretary
Wilbur.

In a letter to Senator Hale of
Maine, chairman of the Senate
Naval Committee, Wilbur declared
that "no leases or contracts will
be made" by the Navy Department
without the personal approval of
the Secretary of the Navy.
"No further leases will be made
until expressly authorized by Con-
gress," he continued, "unless it ap-
pears to my satisfaction that such
leases are absolutely essential to
prevent the draining of oil in the
reserves by wells drilled adjacent
thereto, and unless it further ap-
pears that such leases are fully au-
thorized by act of Congress, and in
that event such leases will be made
only after competitive bidding."

Referring to the Teapot Dome
litigation now pending, Secretary
Wilbur said he would avoid "in
every way any act or proceeding
which will in any way involve the
rights of the Government in such
litigation, and will avoid any con-
duct which may in any way inter-
fere with the contentions advanced
by the attorneys for the Govern-
ment."

For the information of the Sen-
ate committee, Secretary Wilbur
said it should be stated that "both
Reserves Nos. 1 (California) and
2 (Texas), Wyoming, contain large
quantities of oil that can be pre-
served in the ground, at least for
the present." Reserve No. 2 (Cal-
ifornia), he said, "presents a differ-
ent situation by reason of the
leases to the Honolulu Oil Co."

A mine of the Madison County
Coal Co., at New Douglas, Ill., in

diarism is suspected, according to
a telegram received at the
Sheriff's office in Edwardsville. An-
other of the company's mines at
Edwardsville, was closed two weeks
ago through failure to meet the
\$12,000 payroll.

ference for Stump or anyone else.
There's a widespread feeling in
Washington, extending even to Re-
publicans, that the indictment of
Senator Wheeler will prove to be a
boomerang. In an apparently can-
did statement in the Senate, Wheel-
er went into the details of the
charges against him, asserted his
complete innocence of any wrong-
doing, flayed his enemies for what
he termed a conspiracy to discredit
him and the work of his commit-
tee, and then played his trump
card by requesting an investigation
by a Senate committee, to be named
by the chair. His colleague,
Wash, sustained him on all points
and in pursuance of his request
introduced resolution calling for an
inquiry.

It looks as if Wheeler has ef-
fectively spiked the Republican Na-
tional Committee's guns.

"Know Nothing of It," Johnson
Says of Reports of Quitting.

By the Associated Press.

WASHINGTON, April 10.—While
friends of Senator Hiram Johnson
gather in Washington to consider
the status of his campaign for the
Republican presidential nomina-
tion, neither he nor his supporters
have given any indication of their
plans or the possible effects upon
their future activities of the pri-
mary returns from Michigan, Illi-
nois and Nebraska. Senator John-
son denied knowledge of the in-
coming conference when his at-
tention was called to reports that
it was to be held, and made the
same comment—"I know nothing
about it"—with reference to pre-
dictions that he might soon re-
draw as an active candidate. Fail-
ure of the campaign methods thus
far pursued to get the desired num-
ber of delegates in the west and
middle west, however, has obvious-
ly disappointed some of his sup-
porters, and they are expected to
suggest various changes.

**Johnson's Chicago Offices to Be
Vacated at Once.**

By the Associated Press.
CHICAGO, Ill., April 10.—Hotel
rooms in Presidential Row, which
have served as headquarters for
Senator Hiram Johnson's cam-
paign, will be available to new
tenants Monday. Officers of the hotel
expected the Johnson suite would
be vacated today or tomorrow.

Although the Chicago offices
have not been considered national
headquarters of the campaign
since Frank H. Hitchcock relin-
quished active general direction of
the Johnson forces early in Febru-
ary, they have served as a clearing
house for strategic plans for sev-
eral midwestern States.

When Hitchcock withdrew from
the Chicago quarters in February
following Harold L. Ickes' appoint-
ment as Illinois manager, he em-
phasized that in the broader sense
the Johnson campaign would be
constituted of a number of indi-
vidual and independent state con-
tests, with only such general co-
ordination as might be suggested
by Senator Johnson.

PHILIPSON QUITS AS RESULT OF CRITICISM

Aid to Schweitzer Unwilling to Give Up Private Practice—
A. J. Stack Successor.

Ben Philipson, first associate prosecuting attorney today tendered his resignation to Prosecuting Attorney Schweitzer, who accepted it and announced that Philipson would be succeeded by Aloysius J. Stack.

Philipson, in his letter of resignation, declared "the occasion, if not the cause," of his quitting of office was the criticism which has been directed against the Prosecuting Attorney's office by the newspapers because of the practice of devoting part of their time to their private practice.

Says Law on Point Is Uncertain
He pointed out that the law is uncertain upon this point, one section seeming to prohibit outside practice, and the following apparently holding it legal in civil cases. He asserted the office under the belief he said that he could devote his spare time to his private practice, as had been done in the past.

"I cannot afford in justice to myself to wholly relinquish my private practice," the letter continues. "I have never allowed that to interfere with the work of the office, but in view of the public agitation and criticism of the practice, I must either resign from the office or submit myself to public criticism, which may be thought justified by the uncertain meaning of the statutes. I prefer the former course; hence my resignation."

Philipson wrote that he had hesitated to resign "because of the inference, which however unwarranted," might carelessly be made by persons ignorant of the facts. He declared his belief that a comparison of the record of the Prosecuting Attorney's office with that of previous occupants would show criticism to be unfounded.

Among Philipson's private activities has been his occupancy of a co-ownership of the \$2,000,000 estate of Edward Butler, former Democratic leader. Unsuccessful efforts were made by heirs, after he was named by Judge Landwehr for this post last July, to have the appointment set aside on the ground that Philipson would receive between \$40,000 and \$75,000 in fees that would have been saved the estate had an heir who offered to serve without fee been appointed.

Another Cause of Criticism.
Philipson has also come in for criticism because it was asserted he had represented persons in civil suits who were figuring as complainants in criminal cases coming under the Prosecuting Attorney's office.

Stack, named to succeed Philipson, was formerly an examiner in the United States Naturalization Bureau here. He is a graduate of St. Louis University and has practiced law for 13 years. He resides at 1012 Claremont avenue and is 34 years old.

Schweitzer said Stack, who has accepted the position, was recommended by Federal Judge Dyer, James C. Davis, and by officials of the United States Department of Labor.

Philipson had served under Schweitzer since the latter took office in January, 1935. His salary was \$2000 a year.

FRENCH AND GERMANS ALSO WORKING ON 'RAY THAT KILLS'

Expert Reports, However, They Have Not Achieved Success That Has Marked Briton's Experiments.

LONDON, April 16.—A non-British expert investigator said today that, judging from disclosures already made regarding the secret electric death ray invented by S. Grindell-Matthews for bringing down airplanes, it appeared he had achieved a much greater success than either the German or French scientists working on the same problem.

An account of Grindell-Matthews' experiments was cabled to the Post-Dispatch and New York World yesterday. This authority has just returned from the Continent, where he has been making secret inquiry into the work of the German and French experimenters, who are working on electrical mechanisms similar to that which Grindell-Matthews seems to have perfected, at least up to the point of a successful laboratory demonstration.

The French, he said, have had but small success so far, and have only been able to project the ray short distances. Nor have the Germans been able to get quite much farther.

Klan Wins in Williamson.
MARION, Ill., April 16.—The flaming cross blazed again in Williamson County last night as 2000 Ku Klux Klansmen toured the county in automobiles in celebration of the overwhelming Klan victory at the polls in Tuesday's primary. The klansmen, accompanied by a band, visited Herrin, Johnston City and Marion, concluding the celebration near midnight in the Courthouse square in Marion with the burning of a huge cross. Speeches were made by Glenn Young, Klan dry rider, and Wallace Bandy, nominated for the Legislature.

**HIGH SCHOOL TEACHERS
ISSUE SALARY APPEAL**

Statement Describes Situation Here for Last Eight Years as "Critical."

A letter from the St. Louis High School Teachers' Association to the public, appealing for better salaries for high school teachers, characterizes the salary situation of high school teachers here for the last eight years as "critical," and points out that efficient teachers cannot be attracted to St. Louis unless salaries are made higher. It follows:

"Nearly a year ago the St. Louis High School Teachers' Association made an appeal through the press and otherwise for public approval and support of a movement to obtain better salaries for the high school teachers. It is a matter of great regret that no adjustment has been made, though ample evidence of public approval has been submitted to the Superintendent of Instruction and the Board of Education and though there is no apparent reason or adverse condition to prevent favorable action on the question.

"The teachers' salary schedules now in effect were adopted by the Board of Education in June, 1920. No change has been made in the schedules since that time except as they apply to the grade school teachers. Since 1907, the schedule for the high school teachers has advanced only 46.6 per cent, while the cost of living, as is well known, increased to the peak of 1920, which, as variously estimated, was from 120 per cent to 140 per cent above the 1913 basis, and is still about 100 per cent above the mark for 1907. No intricate calculation is necessary to show that the high school teachers of St. Louis are receiving now salaries which are actually much lower than those of 1913, or, in fact, than at any time within 40 years prior to that date. If the buying power of the dollar is taken into account, moreover, it was commonly considered that the salaries paid previous to the war period were low and inadequate. Therefore, it is apparent that the financial problem of the teachers, who for the most part are wholly dependent upon their salaries for the support of themselves and their families, is a serious one. It has been particularly critical for the past eight years.

"The response which many organizations and prominent citizens have made to our appeal for their support has been most gratifying. The great number of endorsements which they have submitted to the Superintendent of Instruction and the Board of Education by resolution, statement and personal interview, constitute conclusive proof that favorable action on the matter by the school authorities would receive the hearty approval of the tax paying public. The people of St. Louis want the best schools. It is well known that the schools cannot be the best if the teachers are not of the highest type, and it is also well known that the best teachers cannot be attracted to St. Louis and retained, unless they are paid adequately.

"The people of St. Louis have shown their willingness to pay the necessary tax in order to attain this objective and their will should prevail."

**\$6500 CLAIM ON ESTATE OF
WOMAN FOR SERVICES UPHELD**

Miss Julia Schwartz Testifies She Adapted Her Life to Enable Her to Care for Mrs. Malinda Zimmerman.

Miss Julia Schwartz, 4143 Lindell boulevard, yesterday obtained a jury verdict in Circuit Judge Percy's court for \$6500 against the estate of Mrs. Malinda Zimmerman, 80 years old, who died two years ago, leaving property valued at approximately \$25,000. Miss Schwartz's suit was based on personal services rendered to Mrs. Zimmerman during a period of 20 years.

She said she adapted her life to Mrs. Zimmerman and would only accept such other employment as would permit her to care for Mrs. Zimmerman. The latter, it was alleged, had promised to reimburse her, but died without having kept her promise.

In her will Mrs. Zimmerman left her estate to her two daughters, John C. Robertson, attorney for the claimant, argued that the claim was a just debt. The case originally was heard in the Probate Court, where the petition was denied. Mrs. Zimmerman lived at the Roselle Hotel, 4145 Lindell boulevard.

K. K. K. RIOTERS DENIED BAIL

By the Associated Press. EBERSBURG, Pa., April 10.—Delivering an opinion that it is unlawful in Pennsylvania for a body of men to assemble when dressed in gowns and masks, Judge John A. Evans last night ordered the 25 men arrested in Johnstown in connection with the fatal rioting of townspeople and visiting members of the Ku Klux Klan, last Saturday night at Lilly, be held without bail for June term of Criminal Court.

The men held, said to be Klansmen, are charged with murder and riot. Judge Evans' opinion was given in denying an application for a writ of habeas corpus. The men, who were brought to Ebersburg yesterday on a special trolley car, will be held in the county jail here. Twenty men were killed, one fatally injured and about a score of other persons were wounded in the rioting.

**The tragic significance
of age 31**

YEARS 0 10 20 30 40 50 60 70 YEARS

The average Health Span reaches only from age 18 to age 31, according to the United States Life Tables, 1920

PHYSICAL freedom and full vigor—what are they worth to you? This is a question the average American can answer from his own bitter experience—for at age 31 the average American begins to slip. After 40 his earning power drops off rapidly. He is an old man before his time. These appalling facts are shown by the United States Life Tables, 1920.

Age 31! The age at which men and women should be entering their period of greatest usefulness and happiness! The beginning of the supposed "prime of life."

Not the prime of life. The age of decay! What causes contribute to this fearful condition?

Unwise eating. Sleeplessness. The continual loading of the body with drug stimulants, which appear to give added energy, but actually borrow this energy from the body's own reserve.

Every school child is taught to avoid stimulants. Most mothers enforce the no-coffee rule for children. Then comes maturity—and the squandering of the reserve strength which has been stored up. Figures show that the average American is able to stand the pace for just 13 years. Then, with half his life yet before him, he hits the down grade.

Medical literature classifies caffeine as a poison. Like strychnin, it is sometimes given in cases of heart failure. The average cup of coffee contains the usual dose of caffeine administered by physicians in these cases. If the American people were forced to undergo a process of slow poisoning, their outraged cry would shake the heavens.

Convenience and economy! Your grocer sells Postum in two forms. Instant Postum, made in the cup by adding boiling water, is the easiest drink in the world to prepare. Postum Cereal (the kind you boil) is also easy to make, but should be boiled 10 minutes. Either form costs less than most other hot drinks.

Yet millions subject themselves to poisoning—and at 31 begin to pay the bill!

Coffee contributes no nourishment to the body. Its only virtues, as a beverage, are its warmth and flavor. A hot, appetizing, drugless drink is a benefit with every meal.

People in 2,000,000 American homes enjoy such a drink in Postum. A drink with the rich, mellow, full flavor and fragrance of roasted whole wheat and bran—a flavor which millions enjoy better than any other.

If you are interested in your later years, change to Postum. Try it for thirty days—you can't expect to rid yourself of the effect of a habit of years in a day or two. Know that you are enjoying a drink which contributes, rather than robs, reserve strength. A food drink for every member of the family, every meal of the day!

We will give you—free—a full week's supply of Postum, to start you on your thirty-day test. We will have Carrie Blanchard, nationally famous for the goodness of her Postum, send you her own directions for making it.

After 31, what? Take one easy step in the right direction, by sending for your first week's supply of Postum—now!

Always use enough to get lasting suds after the clothes are in

This New Laundry Soap

saves you the hardest work of washday
soaks dirt out—no more hard rubbing

The old washday that meant hard, harmful rubbing is a thing of the past.

Simply soaking in rich Rinso soap suds takes the place of rubbing—does the hard work for you. The loosened dirt comes out easily. Even grimy places where dirt is ground-in come clean with so little trouble to you—just a light rubbing.

Because Rinso dissolves completely, it rinses out thoroughly. No bits of soap left to turn your clothes yellow under the iron.

You need only Rinso for your Monday wash—no other soap or soap powder. It is made by the makers of Lux, the largest soap-makers in the world. It is perfect for all types of washing machines—fine in the boiler—and just wonderful for soaking in set tubs.

Milk of Magnesia

Users Try This!

Science combines Milk of Magnesia with Mineral Oil to fight constipation and acidosis

Modern civilization with its heavy overeating and its lack of exercise has brought two great foes of human health: constipation and acidosis (sour stomach). Your indigestion, heartburn, that dark brown taste in the morning—are all symptoms of this condition.

Milk of Magnesia is fine for neutralizing harmful stomach acids but milk of Magnesia alone, only goes half way. Therefore Science has combined pure mineral oil with this splendid agent.

Haley's Magnesia-Oil is the name of this perfect emulsion upon which the U. S. Government has granted a patent.

The milk of Magnesia counteracts and neutralizes the acids and the mineral oil lubricates the intestines, overcoming constipation naturally without forming a habit. Haley's M-O can be taken safely by young or old. It is non-habit-forming and contains no drugs or other harmful agents.

Stop at your drugstore's today and get a bottle of Haley's Magnesia-Oil. Take some tonight before going to bed and get up tomorrow morning feeling like a new person. All drugstore—trial size 35c, family size \$1.00. The Haley M-O Company, Indianapolis, Ind.

POPE ABANDONS PLAN TO LEAVE VATICAN

Last-Minute Decision Upsets
Program for Dedication of
K. of C. Building.

By FERDINAND TUOHY,
A Staff Correspondent of the Post-
Dispatch and the New York
World.

Copyright, 1934, by the Press and Tribune
Publishing Co., the New York World
and the Post-Dispatch.

ROME, April 16.—Pope Pius XI
remains a voluntary prisoner in
the Vatican.

Banner headlines in the evening
papers, "Pope to Leave Vatican
This Afternoon," "End of Historic
Self-Imprisonment," yesterday gave
effective last-moment ammunition
to the "die-hard" Cardinals who
have all along been against the
project of the Pontiff to honor the
Knights of Columbus by a historic
exit from the Vatican to their wel-
fare center.

The result was that a half hour
before the Pontiff was due to ar-
rive on Italian soil, the throne pre-
pared for him was whisked away
and the intelligence was circulated
that the eventful event had been
cancelled for diplomatic reasons.

All Preparations Made.

What confronted the Papal
scouts yesterday afternoon on the
American charity settlement was
a dozen movie and camera men
and a squad of reporters, foreign
and native. As late as 4 o'clock
all was ready to receive His Hol-
iness, who was to dedicate the es-
tablishment, bless the chapel bells,
see motion pictures of mountain
climbing in the theater, distribute
commemorative medals and re-
ceive and reply to an address by
Edward Herne, head of the
Knights of Columbus project in
Rome.

All officials present wore evening
dress, which is only put on for the
Pope. Persons clustered about the
green garden door passage which
was to be such a symbol. Scarlet
waq being hurriedly draped here
and there, while caterers were pre-
paring sumptuous refreshment,
the staple of which appeared to be
Mum's Gordon Rouge. The feast,
however, was discreetly screened
off from the adjacent circle of red
rush chairs, in the center of which
stood the papal throne significantly
free of the papal arms, since this
ground is under the sovereignty of
King Victor Emmanuel.

Hundreds of the chief ecclesiast-
ics from the Roman curia and
from the American College had as-
sembled and the general opinion
prevailed that the Pope was about
to break the ice and come out open-
ly onto Italian soil.

Represented by Papal Secretary.

Then suddenly the report went
round that the ruler of the Vatican
had decided, when on the brink of
the Rubicon, not to appear on ter-
ritory where the law of guarantee no
longer prevailed, where he no longer
would enjoy extra territorial
rights, and where his treading the
ground would be tantamount to
burying the hatchet and abandon-
ing all claims to the papal states
and the temporal power shorn from
Pius X a half century ago.

The Vatican is not yet prepared
to make such concessions, even if
the Pontiff is. So the papal Sec-
retary of State, Cardinal Gasparri,
was sent instead, accompanied by
18 other princes of the church, in-
cluding Cardinal Mundelein and
Cardinal Hayes, but not any of the
Swiss Guards, carabinieri or Pala-
tine guard, without which no cere-
mony within Vatican precincts is
complete.

The nonappearance of the Pontiff
caused deep disappointment, espe-
cially to hundreds of his poorest
Italian neighbors who covered the
roof tops.

Pope Pius Commends Activities of
Knights of Columbus.

By the Associated Press.
ROME, April 16.—After the
ceremonies last night at the ded-
ication of the Knights of Columbus
Welfare Building, Pope Pius re-
ceived in audience Edward L.
Hearn, general commissioner for
Europe of the Knights of Colum-
bus.

Pope Pius, when receiving Hearn
and replying to an address by the
General Commissioner, solicited the
Cardinals on being able person-
ally to see the new buildings of
the Knights of Columbus Center.
He particularly congratulated the
American Cardinals because the
work in the Center is being done
through American generosity, and
said they were especially able to
appreciate this.

As for himself, the Pontiff con-
tinued, not desiring to leave be-
hind the territory legally established,
he was obliged to be content with see-
ing the plans for the Center and
hearing the reports regarding the
work, which he had followed with
the greatest interest, being always
deeply interested in all work car-
ried on for the benefit of youth.

The Pontiff praised the activities
of the Knights of Columbus, who,
he declared, were following out the
ideals of Columbus, inasmuch as
the great navigator had boldly
united faith in the Cross with a de-
sire to discover new lands in order
to contribute treasures found there
for the salvation of infidels.

The Knights of Columbus, said
Pope Pius, showed great nobility in
wishing to establish close to St.
Peter's a new and modern oratory
to save youths from the danger
menacing them and to endow it in
a manner to assure its permanent
existence. His gratitude was all the
more profound as he was aware of

the existence in Rome of institu-
tions "where errors are propagated
tending to pluck souls from a faith
for whose integrity many martyrs
gave their lives in Rome."

The Pontiff charged Hearn with
the task of expressing his paternal
thanks to the head of the
Knights of Columbus and to other
members of the association. He re-
peated his delight that the Ameri-

GRIESEDECK BROS. BREWERY WILL REOPEN FOR TIME

Permitted to Complete Beverage-Making Operations, and to Dispose of Products on Hand.

FARRIS OVERRULES
DYOTT'S PROTEST

Decision Sets Precedent—Plant Has Been Closed Under Nuisance Clause Since Raid Feb. 21.

The Griesedieck Bros. Brewery, 1900 Shenandoah avenue, which has been closed since it was raided, and real beer was seized there, Feb. 21, will reopen in a day or two, under permission of the Federal Court, for a long enough time to complete beverage-making operations which were under way at the time of the raid, and to dispose of the non-alcoholic products on hand. The Griesedieck brewery is the focal point of the investigation now being made by the Federal grand jury, into allegations of protection of the manufacture and sale of real beer. Raymond B. Griesedieck, vice president and manager of the company, has made a confession to the effect that he carried on the making of beer of unlawful alcoholic content for several months, and that he paid about \$15,000 to Charles S. Prather, then State Food and Drug Commissioner, for real or supposed protection. Prather, who resigned his State position after the charge became public, has denied any wrongdoing.

Restraint Order Issued.
After the raid of Feb. 21, which was made by Gus O. Nations and his local field force just ahead of a group of visiting investigators who were looking into the protection charge, a restraining order was issued against the operation of the plant, under the nuisance clause of the Volstead act.

Attorneys James E. Carroll and Vance J. Higgs, representing the brewing company, Tuesday petitioned Judge Faris to grant the brewery leave to bottle 1750 barrels of beverage on hand, which, they represented, would otherwise spoil; also to sell the beverage when bottled, and to dispose of 4150 cases of bottled beverage, 719 cases of root beer, 82 barrels of root beer, 738 cases of a grape drink, 1000 bags of rice, 80 barrels of hops and 1310 bushels of malt. Judge Faris' order was inclusive of everything sought by the motion. The sales value of this property, the court was advised, is about \$20,000.

John C. Dyott, Special Attorney-General, opposed the order on the ground that the Volstead act authorized the seizure of all of the property taken into custody by the Government. He declared Section 21 of the act gave a lien against all such property for the payment of all fines and costs that might be assessed against persons maintaining such a nuisance as this is alleged to be.

Dyott Overruled.
In overruling the contentions of Dyott, the court went minutely into the various sections of the Volstead act, and decided all the articles mentioned in the motion to be personal property, and then found that the sections of the law which applied in the case do not authorize the seizure of personal property. The decision sets a precedent.

Judge Faris, in his opinion, said: "The statute under which this injunction was issued, provides that 'Any room, house, building, boat, vehicle, structure, or place where intoxicating liquor is manufactured, sold, kept, or bartered in violation of this title, and all intoxicating liquor and property kept and used in maintaining the same, is hereby declared to be a common nuisance.'"

The court quotes the clause relating to injunctive proceedings, which authorizes issuance of an order against "removing or in any way interfering with the liquor or fixtures, or other things used in connection with the violation of this act constituting such nuisance."

Judge Faris says that when personal property is mentioned in this statute, it is stated, and is in fact directly stated, that such property must be property which is kept and used in maintaining a nuisance. He interprets this to mean only property which plainly and directly appertains to the making of alcoholic beverages. It is true, he adds, that the law gives a lien for the payment of any fine or cost which may be assessed, but this does not apply to personal property, though it does apply to buildings, vehicles or boats.

Today's Fiction
By "Self-Adm
Trash, Maj. P.Veteran Publisher "Saves
While Reading, Prefer
Declares Thugs Cont

"Trash" is Maj. George Haven
Putnam's reaction for present-day
fiction: both American and En-
glish.

The Putnam publishing house of
New York and London, of which
the Maj. is the head, publishes
works of fiction, but he seldom
bothers to read them.

"I have," he said to a Post-Dispatch
reporter who called on him at Ho-
tel Chase, during his St. Louis visit
this week.

"I have my eyes for worth-while
reading. I prefer biography, history
and politics—such books as Chancellor
Hadley's 'Rome and the World To-
day,' which we published—are sub-
stantive."

"I am not for reading, but I
cannot see the fiction. We have
paid readers to handle that."

Present Fiction Fatigues Him.
"Present fiction, both American
and English, is being written by
a young group of self-admirers. It
fatigues me."

"The selling of books in this
country has been affected unfavor-
ably by these things in modern life.
Book men are usually luxury
lovers. What people have left af-
ter their living expenses are met
by the buying of automobiles, and
the buying of automobiles has taken
many millions of money. Then came
the movie, which takes people's
time and money, and last has come
the radio, which takes the time of
those who stay at home and might
otherwise read. They won't read
when they can listen in so much
more easily."

"The question is often asked
whether the spread of public li-
braries has hurt or helped the
book business. I believe it has
helped by cultivating the literary
taste of those who afterward be-
came book buyers."

Next to the world peace move-
ment, for which he speaks here,
Maj. Putnam's hobby is the perfect-
ing of international copyright ar-
rangements. His father, who was
the first American publisher to in-
clude copyright relations between En-
gland and this country, and Maj.
Putnam was an active promoter of
the international measure of 1931.
He is to attend hearings on a pen-
sion measure in Washington before
he goes to England for the sum-
mer.

"International copyright creates
a literary bond between nations,"
he said. "Nations that read the
same books have a powerful com-
mon interest. Nothing has done
more to establish the friendly re-
lations of America and England
than the reading by Americans of
the works of Dickens, Thackeray
and Matthew Arnold, and the visits
of these authors to this country,
and the reading by the English of
the works of American authors."

PROPOSAL OF LLOYD GEORGE
FOOL'S TASK, MACDONALD SAYS

Premier Argues Against Separation
of Straits Conventions from Rest
of Lausanne Treaty.

LONDON, April 10.—The House
of Commons last night unanimously
passed to second reading of the
bill to ratify the Treaty of Lau-
sanne. Previously Sir Edward
Grigg, Liberal, had withdrawn his
proposal amendment providing
that the House decline to proceed
with the bill unless it was assured
that the dominions and India were
fully informed of and acquiesced
in the liabilities the Empire as-
sumed under the guarantee.

Thus the British Empire as-
sumed in ratifying the Lausanne
Treaty between the allies and Tur-
key which former Premier Lloyd
George in the course of the de-
bate characterized as from the
British viewpoint, a deplorable
error, such as might have been
signed by a vanquished power.

Lloyd George said that he did
not desire to advocate refusal to
ratify the treaty but that he sug-
gested to the Government the ad-
visability of declining to ratify the
Straits convention, which was not
an essential part of the treaty and
which might in the future involve
Great Britain in grave responsibil-
ties, and possibly a disastrous war.
In the not impossible event of a
future Russian government again
becoming imperialistic.

Premier MacDonald, reiterating
his former argument that there
was great urgency for ratifying the
treaty, despite its defects, said an
attempt to separate the Straits
convention from the remainder of
the treaty would undo everything
and necessitate the beginning anew
of all the negotiations. He added
that he did not intend to take the
floor, which would be the task of a fool
or a criminal.

DISCARE ON SOVIET TRADE

—Premier Says Attitude of France Is Same as That of U. S.

PARIS, April 16.—Premier Poincaré asked in the Senate yesterday by Senator de la Motte whether France could not now resume commercial relations with Russia, said that the attitude of France respecting the Soviet Government was the same as that of the United States. He declared that France did not concern herself

with the interior regime in Russia, but was determined to protect the interests of the French holders of Russian bonds and could not sacrifice them to the advantages which firms might derive from trade with Russia.

The Premier said that he had not asked Russia to do more than recognize the ordinary principles regulating the relations between nations. Until these principles were recognized he could not change his attitude.

THE POST-DISPATCH PLAT-
FORM.

I know that my retirement will make no difference in its cardinal principles, that it will always fight for progress and reform, never tolerate injustice or corruption, always fight denunciations of all parties, never belong to any party, always oppose privileged classes and public plunderers, never lack sympathy with the poor, always remain devoted to the public welfare, never be satisfied with merely printing news, always be drastically independent; never be afraid to attack wrong, whether by predatory plutocracy or predatory poverty.

For a Camp Jackson Plaza.

The demolition of buildings at Pine, Lawton, and Grand boulevards, to make way for the Pine-Lawton cut-off, indicates that this site will be cleared by May 8, 9, 10, which will be the anniversary dates of the exciting days incident to the Camp Jackson riot of Civil War times.

This spot, Pine to Lawton, on the east side of Grand boulevard, which is to be a plaza, is almost the exact center of the western boundary of Camp Jackson, which extended along Grand from Olive street to Laclede. I believe the camp extended eastward on Olive street about four blocks, and on Laclede for some eight or 10 blocks, making the eastern boundary an irregular affair.

My suggestion is this: On May 10 have the city officials and the Missouri Historical Society, or some similar body, dedicate this plaza as a memorial to Camp Jackson, and later have erected there a memorial stone to commemorate this thrilling episode of our city's history. Grand avenue is now the most prominent thoroughfare adjacent to the site of Camp Jackson, and this new plaza will be "made to order" for such a monument.

May I also suggest that the memorial stone be of Tamaroa marble, whatever that is? You know the cannon for Camp Jackson, sent by order of Jefferson Davis, were smuggled into the city in boxes bearing the label "Tamaroa marble."

All of this is submitted as a suggestion to those qualified to act in such matters.

Annexation and Home Rule.

AMENDMENT No. 11, for annexation is all right, and I think it will go through if put before the people, but—cut out home rule! It sounds good, but home rule means control of the Police Department by the local politicians, and elections would be under their domination, and we all know what that means.

Those of us who remember the old system, when our population was small, how our police activities were used in elections, and which was changed to the present (metropolitan system) for that reason, and if we had home rule now we can readily see how that condition might be serious, if in control of unscrupulous political parties.

Many voters like annexation but not home rule, so why not urge amendment No. 11 without the home rule clause.

OLD TIMER.

Pay of Library Assistants.

THE salaries in the city hall have been raised, but no one seems to have given a thought to the poor, underpaid library assistant.

Every day, and two or three evenings a week, she works cheerfully and conscientiously, for a salary wholly inadequate under the present high cost of living and much below that of intelligent workers in any other field. About a year ago salaries in the library were raised \$2.50 a month. There they rest. Vacancies are scarce and the trained assistant, ready for a promotion, who has to keep on working for the same amount each year, loses hope and ambition.

It is ridiculous to expect a bright, ambitious girl to take up library work in St. Louis under these conditions. No wonder the girls prefer to enter other lines of work.

Some time ago the names of 30 cities were given, stating the sum paid in salaries to their library assistants. For some reason, St. Louis was not in the list. It is a fact that St. Louis pays less than any other city. Perhaps the Library Board, which is composed of intelligent citizens, does not realize the state of affairs.

The library co-operates with the public schools and is a great factor in the educational and recreational life of our young people.

Won't you look into this matter and do your best to alleviate present conditions in the library?

Moral Aspect of Birth Control.

IN an editorial presented to your readers on last Sunday you gave utterance to your sentiments on the current agitation touching the question of birth control.

That you should take cognizance of the so-called scientific aspect of this doctrine can easily be understood. Moreover that you should take account of its materialistic viewpoint can also be understood. But that you should altogether overlook its moral character and therefore give your approval to a doctrine which is intrinsically evil is not quite so intelligible.

I am, therefore, taking the liberty of commending to your consideration this moral view of the doctrine of birth control and its propagation. Respectfully,

R. F. BELLOCK,
St. Louis University.

THE REPARATIONS PLAN.

The one thing lacking in the report of the Dawes commission is any decision or suggestion with regard to the total amount of reparations Germany ought in reason to pay. This lack is explained on the ground that the commission had no power to fix the total sum of reparations. It was authorized to find out only what Germany can pay and what must be done to enable her to use her resources so that she can pay the annual amounts determined upon as within her capacity by the commission.

Within the scope of its work, the commission has accomplished an extraordinary result which formulates the plan by which Germany may be rehabilitated, her credit and productive power renewed and provision made for the payment of all treaty charges, and eventually of reparations.

The commission has handled its problem from a strictly business standpoint, ignoring all political considerations, yet insisting that the success of the plan depends upon noninterference on account of politics, and the freedom of Germany to develop her resources and to work out her salvation. Regarding Germany as a debtor nation, on the verge of bankruptcy, the commission has taken account of her resources and has determined in practical form the conditions under which these resources may be organized and utilized to defray over a period of years reasonable reparations and just treaty charges, which include the costs of occupation and of putting the treaty into effect.

The most reassuring thing in the report is the revelation of the extent of German resources and of the practical conditions under which these resources may be utilized to put Germany on her feet economically and to enable her to meet her obligations and work out her economic redemption.

Without attempting to go into the multitude of details which are set forth in the news, the prime conditions may be mentioned, namely, a loan of \$200,000,000 to enable Germany to stabilize her currency, which is fundamental to economic recovery and to make immediate payments. This loan and subsequent payments through free industrial and commercial activity Germany is to guarantee and make good by railroad mortgages, special taxes—taxes to the limit of capacity—and profits on business which is to be developed. In the third year Germany is to begin making payments from her own resources, the payments to be gradually increased until they reach a total of about \$600,000,000, which will meet all charges.

Whether the plan will be successful or not depends upon its acceptance in good faith by all the parties involved in the present situation. There must be an agreement to put the plan into operation and to co-operate in working it out, with all the powers in concert. There must be an agreement with regard to the total of reparations and treaty charges so that Germany will know precisely what her total payments will be and the bankers who advance the money will have guarantees of payment. It will probably be necessary to make the loan a first lien on German resources, with the Powers in full agreement on this point and in support of the whole plan. France finds ready objections in the lack of sanctions and other points, but the plan offers tremendous advantages to France in that it carried out it assures payment of reparations and other charges, the uncertainty of which now threatens the economic stability and prosperity of France. There must be some impartial body to decide the question of default and whether the possible default is voluntary or unavoidable. There is a recourse in this matter in the recommendation that questions of settlement arising hereafter shall be referred to the League of Nations.

The plan offers advantage in assurance of settlement of the German problem with inestimable benefits both to the nations immediately concerned and to all other nations, which will profit by European rehabilitation and the restoration of industrial and commercial activities.

The report points the way and outlines the conditions that must be established and lays the basis for peace and future prosperity. The outcome depends on the sanity, judgment and good will of the nations involved. The world has been enlightened at least with regard to what can be done and what ought to be done, and there is ground for lively hope that the pressure of world opinion will induce a satisfactory settlement.

FINISH THE JOB.

Something new under the sun will be witnessed in St. Louis tomorrow afternoon at 4 o'clock when the United States Government barge, Birmingham, leaves the municipal docks at Levee and North Market street.

The Birmingham is a self-propelled barge, which is scheduled to make the southbound trip to New Orleans in five days. That will be cutting the time in half. It is possible, of course, that the trip will not be made so swiftly as expected. It seems certain, however, that the time will be appreciably reduced. And that is the big consideration. River transportation today meets a vital requirement in the matter of cost. It is much cheaper than rail service is or can be. Now, if speed can be added to economy river transportation takes on a significance that can hardly be overestimated.

The Birmingham, obviously, is not the last word in barge speed. Indeed, in this day of mechanical miracles nobody can put a limit on the possibilities in any field of human requirement. Experience warrants the assertion that presently there will be faster barges than the Birmingham. And with channels of proper depth and width, with adequate terminals, with all the equipment that goes to make a first-class plant, the part that our rivers will play in economical transportation challenges imagination.

All that is needed now to hasten the day of cheap, quick and certain transportation is action by Congress. If Congress will make the appropriation necessary to complete the development of those three great rivers, the Mississippi, Ohio and Missouri, as proposed in the bill prepared by Representative Newton, the solution of the difficult problem of economical transportation will be in sight. Fortunately for the cause of the rivers, their advocates are no longer compelled to deal in prophecies. They now have a convincing record of things done with which to silence doubt. When a still struggling young transportation agency carries 714,431 tons of freight in a year, and does it cheaper by hundreds of thousands of dollars than the railroads, it has proved itself. That is what the Mississippi-Warrior barge line did last year.

But we can never enjoy the fruits of a competent river service until our rivers are put in condition red.

to deliver that service. That is the great truth which our statesmanship must grasp—the necessity of a complete, fully equipped river system. Instead of pitting grudgingly doled out for skimpy river improvement we should have a real investment in the project, as Mr. Newton has forcefully argued and as all the facts and the people's critical needs attest.

The whole proposition of river transportation can now be expressed in three short words: Finish the job.

TWO ILLINOIS RESULTS.

The Illinois primary is mystifying in one of its known results, illuminating in another. Outsiders cannot understand the victory of Gov. Len Small as a candidate for re-election. The qualities which commend the Governor to the people of Illinois are not known beyond the borders of that State. They are not in the official record. His administration of the governorship has been a turbulent period, dimmed by indictment and trial on the charge of misusing the interest of the public funds while Treasurer of the State and with alleged suspicious sequences following his acquittal.

During the primary canvass the ugliest charges were brought against Small, in many instances by responsible persons. Nevertheless, Small won and seemingly by too decisive a margin to be accounted for by the resources of a machine. Small doubtless had a powerful machine, but, apparently, he commanded other support, too. It seems a fair inference that the Small vote, in part, was a protest against the "royalist" combination that led the fight against him rather than an endorsement of the Governor. However explained, Small's nomination is a victory for the type of politician that flourished when bossism was in flower, but which the primary, we were assured, was going to banish into outer darkness.

Offspring as the Small triumph is, the defeat of McAdoo's effort to secure the Illinois delegation is clear and unmistakable. With no opposing candidate, not even a favorite son, the Democracy of Illinois has repudiated Doherty's late attorney. This does not mean that the McAdoo boom has collapsed. What it does mean is that there is a hostility to his candidacy which would make his nomination at the New York convention nothing short of party suicide as regards the forthcoming campaign. Illinois has put the seal of unavailability upon McAdoo.

A reactionary is a chap who regards a speech by Senator Pepper as hot stuff.

CLEAR UP THE CHARGES.

A special committee of the Senate will investigate the charges brought in the indictment against Senator Wheeler, prosecutor of the Department of Justice investigation, by a Federal grand jury in Montana. This decision is well advised in the interest of the public.

Senator Wheeler emphatically denies every charge brought against him. He acknowledges acceptance of a fee in the case to which reference is made in the indictment, but denies ever appearing as an advocate before any department of the Government.

No evidence has yet been given the public on which to base judgment. But the charge must not be permitted to stand without prompt action. If Wheeler is guilty of having sold his influence in the Government after being elected to high office he should not now be investigating the misconduct of other officials but should be exposed and punished. On the other hand, if he has been baselessly attacked for the purpose of discrediting and wrecking the investigation of the Department of Justice, his strength and the power of his cause will increase with vindication.

The investigation of the Department of Justice should not be interrupted while Wheeler himself is on trial. Such interruption would serve the purpose of anybody interested in bringing false charges and would comport with tactics hitherto practiced by the National Republican Committee. Wheeler must be presumed innocent until he is proved guilty. The power of the Senate should be invoked to insure the integrity of the investigations by vigorously meeting all responsible charges against the investigators.

Of course, Senator Wheeler may have an Achilles heel, but we're from Missouri.

GRINDELL-MATTHEWS' DEATH RAY.

If the experiments of H. Grindell-Matthews, witnessed by a London correspondent of the Post-Dispatch and described in Wednesday's issue, can be duplicated on a large enough scale, the prediction of the novelist, H. G. Wells, of the use of death-dealing rays in war would be fulfilled. In his scientific romance, "The War of the Worlds," Wells pictured the invading Martians conquering the human race chiefly by means of what he called a heat ray. In that romance, published in 1898, 16 years before the Germans used poison gas, Wells also described his imaginary Martians using poison gas as an adjunct to the heat ray.

The London correspondent states that H. Grindell-Matthews, in his presence, used his violet-colored electric ray to stop magnets, shrivel up vegetation, kill mice and set fire, accidentally, to his laboratory. Also, accidentally, the ray burned the side of his assistant's face. All this with comparatively low-powered electrical machinery. The inventor is confident that, with enough power, he can bring down war planes, explode ammunition dumps, put automobiles and guns out of action, and kill or incapacitate troops.

He predicts, however, that the use of such rays would not make war more deadly, because "it would be unnecessary always to kill enemy infantry. It would be easy to graduate the power so that hostile troops would be knocked out only long enough to effect their capture."

A similar claim has been made for the use of poison gas. But everyone knows that, in actual war, fighters and their leaders and backers have only one desire—to win, no matter what the cost to the enemy. If this death ray ever becomes practical as a war weapon, it will be used to its limit. The hate propaganda that accompanies modern wars will insure this end.

PANTELIA.

Y ES, Luella,
My little girl,
Has the British
On the hip;
Looks as if
The old idea
As to might
Began to slip.
Anyhow,
A recrudescence
Of the faith
That love is all
Likely finds
Our bumptious era
Riding to
An ugly fall.

Here we see
A little fellow,
Void of bitterness
And meek,
Calmly practicing
The famous
Faith as to
The other cheek.
Having caught
The blow on one side,
Lo, this mild
But knowing seer
Turns his head
About and sweetly
Says, "You now
May swat me here!"

Long ago,
My little girl,
When the world
Was in its spring,
Jesus, whom
We hail a savior,
Said to us
That very thing.
Yet we cannot
Have believed it,
Since we frankly
Must allow
That nobody
Else has tried it
Down from Christ's
Time until now.

In the meanwhile,
Sweet Luella,
While we dance
Our dizzy waltz
To the music
Of the cannon,
All things else
Are proving false.
Having made
Of earth a shambles,
What with Mars
And all his crew,
Here we find
Ourselves reminded
Of the other
Point of view.

So we very
Likely have it;
All despite
Our thoughtless mirth,
Probably the meek
Are truly
At the last
To have the earth.
Anyway,
The pezzed Britons,
While branding worldly pomp and pride
That East and West
And North and South might soon abide
In civic rest."

Think of those cattle thieves of old;
Think of the sting of green-cupped gold;
Think of the chase—the rope—the cold—
The early West;

TO C. R.

"And red chairs," continues the plump, demure little lady. "Red chairs are positively the devil's own incentive to children. Given a baby and a red chair—" she sighed in despair.
Ah, heart of stone, thought I. Would you thus summarily consign to extinction the link which binds the world to babydom, and prepares infancy to take a place in the great and vague world of those grown tall?
"Way, way back, when you yourself were but a pudgy, dimpled forecast of your present glory dignity—was there not some where a tiny chair, a once red chair, with perhaps a golden stripe about the edge—with marks of baby heels made (if they but knew) the day the peach-jam disappeared? What yielding seat of blush velvet can bring you now the joy you felt on twining chubby baby legs about the chair that was your dearest own, until the paint grew thin and rubbed, and the wood shone through in splinters?"
OUTIS.

PARAGRAPHS.

Wrinkles, the gum magnate, is the latest influential personage to desert Hiramson's camp. His chief trouble seems to be an inability to procure enough supporters to hold up his political socks.

Senator Caraway says the scandals in Washington have finally awakened the country. What with English lectures, radio speeches, bedtime stories, mah jong and grand opera concerts, we rather have an idea what it was that put it to sleep.

The annual egg hunt on the White House lawn Easter Sunday promises to go over larger and better than ever, for, thanks to the efforts of the investigating committees, there isn't any likelihood of any rotten ones being found. Realizing the great value of the Teapot Dome scandal for propaganda purposes, Democratic leaders in Salem County, Ore., had cups of tea passed around to an audience comprised entirely of women.

THEODORE TRILSEY.

THE COWBOY SENEATOR.

(John B. Kendrick.)

SING out! O heart, and may thy song
Speak to the ever restless throng
Of him who, weighing right and wrong,
Made clear that he who would be strong
Must bide in truth.

He saw his duty, as a seer,
Nor did he pause to doubt, or fear,
But, prophet-wise, his voice rang clear,
In accents bold:
"Beware the poisoned atmosphere
Of tainted gold!"

"It matters not where we may be,
If in the East, or West, or here,
We hold fast the trail of truth, and see
The herd has rest—
God's restless herd—Humanity—
This is our quest."

"Men, we were called to rope and ride
In this roundup, where Lincoln died,
While branding worldly pomp and pride
That East and West
And North and South might soon abide
In civic rest."

Think of those cattle thieves of old;
Think of the sting of green-cupped gold;
Think of the chase—the rope—the cold—
The early West;
Life, as a tale, is quickly told.

The MIRROR
PUBLIC OPINION

This column is designed to reproduce without bias the latest comment by leading publicists, newspapers and periodicals on the questions of the day.

PRIORITY IN AVIATION.

From the Evening Public Ledger.
LEUT. A. J. WILLIAMS, U. S. N., for glory of America and the honor of the navy, not long ago broke all speed records for flight in the air by driving his plane at the rate of 266.55 miles an hour, a great achievement, from a scientific as well as from a sporting point of view.

greatest of all, it gave the United States place and advantage in a department of activity in which Europe now is supreme. Interested. With no very extensive equipment in planes or personnel, the American fliers have demonstrated their superiority to the airmen of all the world.

Whether they can hold the superiority another question. Not if France and England can take our laurels from us. The interesting fact, disclosed in a communication from the Air Ministry of Great Britain to the National Aeronautical Association of the United States, that an English plane of super-speed is being developed, will be flown in this country in the national races next October. The association requires that models of all planes to be flown must be tested first in Washington.

The Air Ministry, doubtless to preserve construction secrets, wants permission to make the preliminary tests in its own laboratories. France, likewise, is making extraordinary efforts to stimulate the building of speed planes. The Government has offered \$1,000,000 francs to the airplane and motor maker who will fashion a craft capable of breaking Lieut. Williams' record. Additional prizes aggregating 325,000 francs are offered for breaking other speed, distance and altitude records. This very patently is the day of the airplane. It seems a pity that the United States, with the splendid advantage it now enjoys, should be handicapped in the very languid interest which Congress displays in the needs of the air service.

STATES, KEEP YOUR SCHOOLS!

From the Sacramento Bee.
O NCE permit me to enter the wedge of Federal interference, and the time will come when the schools will be reduced to a condition of tutelage to the whims and fancies of a distant dictator.

Fitting the schools to meeting the different needs of different localities will give place to a deadening standardization, and progress and life will be stifled.

Teachers who give their support to this measure are doing an utmost disservice to educational advancement and to the public interest, even though \$50,000,000 of the appropriation is to be applied as an increase in their salaries.

The wisest thinkers and the best informed publicists among Americans today are stressing the absolute necessity of checking the tendency toward centralization at Washington.

It is recognized that this tendency already has gone too far; that the great and successful official machine established in the national capital is becoming increasingly difficult to subject to any measure of popular control; that our local and State agencies and institutions need invigorating if we are to remain free citizens and not to become mere subjects of an arrogant bureaucracy.

Maj. William H. Cocke of 4540 Lindell boulevard, lawyer and wealthy chemical manufacturer, has been elected superintendent of Virginia Military Institute at Lexington, the most famous military school of the South.
The board of visitors of the Institute, in choosing Maj. Cocke, acted upon the unanimous recommendation of the Executive Committee of the V. M. I. General Alumni Association. The action of this committee, in endorsing Maj. Cocke, was told in the Post-Dispatch March 16. He was not an applicant for the position, but has accepted it at the request of the alumni committee and the visitors.

Career of Maj. Cocke.
Maj. Cocke, who is 41 years old, is a graduate of V. M. I. in the class of 1894, and after his graduation was commandant of cadets and professor of mathematics in Kenner Academy, Charlottesville, Va. He later took a law course in Washington University.
He served in the Spanish-American War as a First Lieutenant of Infantry, and after that war he entered the practice of law here. In 1907 he organized the Commercial Acid Co. of East St. Louis. The demand for chemical products in the early years of the European war made this plant very profitable. Early in 1918, after he had returned to military service, the East St. Louis plant was sold to the Monsanto Chemical Co. at a price which meant a profit of more than \$500,000 for Cocke. His company retained ownership of plants in Arkansas and Texas.

Saw Service Overseas.
Maj. Cocke served overseas as Adjutant on the staff of the Seventh Infantry Brigade, Thirty-fifth Division, which was the division containing the greater part of the St. Louis and Missouri volunteer troops. He served in the St. Mihiel and Argonne-Meuse engagements.

After his return from France, Maj. Cocke continued in the chemical business, and he is now chairman of the board of directors of the Southern Acid and Sulphur Co. He will retain this position. He and Mrs. Cocke will go next week to New York, and then Lexington, where they will make their home.

WILLIAM BAYARD HALE,
JOURNALIST, DIES IN MUNICH

Was President Wilson's Unofficial Representative in Mexico in Carranza Regime.

By the Associated Press.
BAYARD HALE, 59, who was a journalist and during the earlier years of the Carranza government, President Wilson's unofficial representative in Mexico, died here. He was born in Richmond, Ind., in 1865.

In July, 1918, Hale, who, when the United States entered the World War, was the Berlin correspondent of the Hearst newspapers and was one of the last Americans to leave the German capital, was named by Deputy Attorney-General Becker of New York as the man who was the editorial chief of the pro-German news service which operated in this country in the first year of the war under the name of German Information Service. Becker's charges were made during his investigation of German propaganda in America.

When the State Department made public late in 1917 cable messages between the German Government and Ambassador Von Bernstorff regarding the proposed release of the German prisoners of war, Hale's name was found in some of the messages.

By the Associated Press.
CHICAGO, April 10.—Mrs. Calvin Coolidge, wife of the President, will be serenaded by radio tomorrow evening in connection with the presentation by members of the Phi Beta Phi Society at the White House of a Christus portrait of the President and Mrs. Coolidge, to be hung in the executive mansion. A chorus of Phi Beta Phi girls of Northwestern University will broadcast the serenade song from station WGN, 279 meters, at 7:54 p. m. Central time. Mrs. Coolidge is a member of the serenade and the White House radio set will be used in to catch the song.

demand for chemical products in
the early years of the European
war made this plant very profit-
able. Early in 1918, after he had
returned to military service, the
East St. Louis plant was sold to
the Monsanto Chemical Co. at a
price which meant a profit of more
than \$500,000 for Cocke. His com-
pany retained ownership of plants
in Arkansas and Texas.

Saw Service Overseas.
Maj. Cocke served overseas as
adjutant on the staff of the Sec-
ond Brigade, Third Fifth Division,
which was the division containing
the greater part of the St. Louis
and Missouri volunteer troops. He
served in the St. Mihiel and Ar-
gonne-Meuse engagements.

After his return from France,
Maj. Cocke continued in the chem-
ical business, and he is now chair-
man of the board of directors of
the Southern Acid and Sulphur Co.
He will retain this position. He and
Mrs. Cocke will go next week to
New York, and then Lexington,
where they will make their home.

WILLIAM BAYARD HALE,
JOURNALIST, DIES IN MUNICH

Was President Wilson's Unofficial
Representative in Mexico in
Carranza Regime.

MUNICH, April 10.—William
Bayard Hale, American journalist
and during the earlier years of
the Carranza government, presi-
dent Wilson's unofficial representa-
tive in Mexico, died here today.
He was born in Richmond, Ind., in
1865.

In July, 1918, Hale, who, when
the United States entered the World
War, was the Berlin correspondent
of the Hearst newspapers and was
one of the last Americans to leave
the German capital, was named by
Deputy Attorney General Becker
of New York as the man who was
the editorial chief of the pro-Ger-
man news service which operated
in this country in the first year of
the war under the name of Ger-
man Information Service. Becker's
charges were made during his in-
vestigation of German propaganda
in America.

When the State Department
made public late in 1917 cable
messages between the German Gov-
ernment and Ambassador von
Bernstorff regarding propaganda,
Hale was found in some of the
messages.

Radio Serenade for Mrs. Coolidge.
CHICAGO, April 10.—Mrs. Cal-
vin Coolidge, wife of the President,
will be serenaded by radio to-
morrow evening in connection with
the presentation by members of the
Pi Beta Phi Sorority at the White
House of a Christy portrait of the
President and Mrs. Coolidge, to be
done in the executive mansion.
The chorus of Pi Beta Phi girls of
Northwestern University will
broadcast the sorority song from
station WGN, 270 meters, at 7:50
p. m. Central time. Mrs. Coolidge
is a member of the sorority and the
White House radio set will be tuned
in to catch the song.

Rupert Hughes' Son Weds.
NEW YORK, April 10.—Rupert
Hughes, writer and motion picture
director, before leaving for the
Pacific Coast today, confirmed the
report that his son, John Hughes,
had married Miss Marion Harris.
News of the couple's mar-
riage a short time ago in Chicago
went out when Miss Harris
was on operation for appendicitis, reg-
istering under her married name.
Their home will be in New York.

Gall-Cure's First Husband Dies.
NEW YORK, April 10.—A ca-
sualty of the Gall-Cure opera troupe,
which is touring the country, died
at the death in Rome Tuesday of
Luigi Cure, Marquis of Simari,
first husband of Mme. Amelita
Gall-Cure, the opera singer. They
were married in 1908 and divorced
in 1913.

Youngstown Publisher Dies.
YOUNGSTOWN, O., April 10.—
William F. Maag Sr., 74 years old,
founder and general manager of
the Youngstown Vindicator, died
at his home here today.

C. K. REIFSNIDER, NEWSPAPER
MAN AND PUBLISHER, DIES

He Headed Midland Publishing
Co. Which Issues Farm Paper—
Was 77 Years Old.

Calvin K. Reifsnider, president
of the Midland Publishing Co. of
St. Louis, which issues "Farm Ma-
chinery and Hardware," died today
at his home, 5249 Lindell boule-
vard, at the age of 77 years, after
a long career as newspaper man
and publisher.

Reifsnider was at his office, 504
Pine street, a week ago when he
contracted a cold which subse-
quently developed into pneumonia.
He is survived by his widow, Mrs.
Anna C. Reifsnider, and three
daughters.

Born at Greentown, Ohio, March
21, 1847, he served in the Ohio
Volunteer Infantry during the Civil
War and began his newspaper
career on the Cleveland Daily Her-
ald in 1870.

In 1876 he came to St. Louis and
bought the St. Louis Journal of
Commerce. In 1883, he founded
the Midland Publishing Co. and
published the "St. Louis Miller,"
which was changed in turn to
"Farm Machinery" and "Farm Ma-
chinery and Hardware." He pub-
lished several books written by his
wife.

Reifsnider was a thirty-second
degree Mason, Knights Templar
and Shriner, and served as com-
mander of the St. Louis Post, G. A. R.,
during 1909, 1910 and 1922. Fun-
eral arrangements have not been
definitely arranged.

MRS. CHUBB'S FUNERAL TO
BE HELD IN PENNSYLVANIA

Memorial Services Here Later at
Sheldon Memorial. Built Largely
Through Her Gift.

The funeral of Mrs. Anna Hart-
shorne Sheldon Chubb, wife of Per-
ceval Chubb, leader of the Ethical
Society, will be held tomorrow in
Haverford, Pa., where Mrs. Chubb
died yesterday, after a prolonged
illness, at the home of her sister.

A memorial service will be held
for Mrs. Chubb later in Sheldon
Memorial, the home of the Ethical
Society, which was built largely
through the gift of Mrs. Chubb,
as a memorial of her former hus-
band, Walter L. Sheldon, founder
of the society here. He died in
1907, and she was married in 1911
to Chubb, who succeeded to the
leadership of the society. Mr. and
Mrs. Chubb lived at 4533 Westmin-
ster place. He was in Haverford
during her final illness.

Was Teacher for 22 Years.
Funeral services for Miss Jessie
V. Tontrup, 1421 Penrose street,
for 22 years a teacher in the pub-
lic schools here, were held today.
Burial was in Bellefontaine Cem-
etery. Miss Tontrup died Tuesday
of pneumonia.

MISS MARION LANE TO
WED MYLES HASGALL

Engagement Is Announced at
Luncheon Given by Miss
Frances Bradshaw.

THE engagement of Miss Mari-
on Lane, daughter of Mr. and
Mrs. Charles E. Lane of the
Chester apartments, and Myles
Hasgall, son of Mr. and Mrs. Sig-
mund Hasgall of Hotel Chase, was
announced today at a luncheon
given by Miss Frances Bradshaw,
daughter of Mr. and Mrs. Richard
Samuel Bradshaw, at their home,
5130 Washington boulevard. The
wedding will take place in the au-
tumn.

The table decorations were un-
usual. Pink roses and smilax,
combined with fresh orange bloss-
oms sent from Florida by friends
of Miss Lane, formed the prin-
cipal embellishment. In the center
stood a doll replica of a bride and
bridegroom, under a canopy of
ribbons which hung from the
chandelier to each corner. The
place cards were smaller dolls.

Miss Lane is a graduate of Mary
Institute and National Park Sem-
inary in Washington, D. C. She
made her debut two years ago at
a tea dance at the St. Louis Woman's
club. Mr. Hasgall is a graduate
of the University of Illinois.

Guests at the luncheon included
Mrs. W. S. Johns of Minneapolis,
sister of the prospective bride-
groom; Mrs. Carlisle Linn, Mrs.
Louis Deming, and Misses Rose
Cronk, Elizabeth Bradshaw, Vir-
ginia Price, Eleanor Atkins, Ger-
trude Hell, Dorothy Wray and
Eleanor Klein.

Paul Oehler will give a dinner
party tonight at Hotel Chase in
honor of the prospective bride and
groom.

Mr. and Mrs. Ewing Hill of the

return home Monday from a
cruise of the West Indies with
Sir Archibald and Lady
Mitchelson of England. They
are now in New York. Mr. D. Cal-
houn and his son, David R. Cal-
houn, have also been cruising in the
West Indies. Mrs. Calhoun is in Europe
with Mr. and Mrs. James H. Platt
of New York.

A radio message from Paris was
received by Mr. and Mrs. Henry
Garneau of the St. Regis Apart-
ments from Mr. and Mrs. Garneau
Weld, who are in Europe on their
honeymoon. Mr. and Mrs. Weld
have changed their sailing date and
will remain until April 19, when
they will sail on the Savoy from
Cherbourg. They will stop in New
York for a few days before coming
to St. Louis. Mrs. Weld was Miss
Mary Etta Randolph.

Mr. and Mrs. James Russell For-
gan of Chicago and their infant
daughter will come to St. Louis at
Easter to be the guests of Mrs. For-
gan's parents, Mr. and Mrs. Jackson
Johnson, 23 Portland place. The
Forgan baby, whom they call Joan,
and Mr. and Mrs. Bradford Shinkle's
small son, named Andrew
Johnson Shinkle for his uncle, An-
drew Johnson, will be christened at
Easter time. Mrs. Forgan and Mrs.
Shinkle are sisters.

Mrs. Edward A. Limberg of 2
Lenox place will depart today for
a 10 days' visit in New York.

Mrs. Henry Garneau of the St.
Regis Apartments will depart Sun-
day for New York to join her sis-
ter, Mrs. Van Leer Willis of Grand
Rapids, Mich., for a visit. Later
they will go to Princeton, N. J., to
visit Mrs. Garneau's sister-in-law,
Mrs. Joseph Garneau. They will re-
main away two weeks.

Mrs. Frank B. Mulford of 4340
Forest Park place has just returned
from New York, where she was a
guest at the home of Mrs. Nelson
Morris, former Ambassador to Swe-
den.

Mrs. David C. Biggs of 5370 Wat-
terman avenue was hostess at a
small informal luncheon at the St.
Louis Country Club today, com-
plimentary to Mrs. Alvin E. Nichols of
Cleveland, who is visiting her sis-
ter, Mrs. Louis T. Maguire, of 1812
Longfellow place.

Mr. and Mrs. William B. Itner of
5553 Barmore avenue are visit-
ing in Knoxville, Tenn. They are
expected home Saturday.

Mrs. John H. Douglas of 15 Van-
deventer place is spending a week
with Mrs. Charles McLure Clark of
15 Hortense place at Hot Springs,
Va. Mrs. Douglas went East to
visit her daughter, Miss Elizabeth,
a student at the Westover School
in Connecticut, and spent 10 days
in New York.

Miss Janet Gardner, daughter of
Mr. and Mrs. Frederick Dozier
Gardner of 4508 West Pine boule-
vard, will be hostess at a luncheon
April 14 at the Belleville Country
Club. The guests will include both
young women and men friends of
the hostess.

The Midland Valley Country Club
will hold its first informal dinner-
dance Saturday evening.

Mrs. Fred Parmore departed
Saturday night for her home, after
a visit to Mrs. Alfred Clifford of
Westmoreland place, last week, and
prior to that with Mrs. Lida V. Be-
vis of the Forest Park Hotel. Mrs.
Parmore is en route home from
Baltimore, where she visited Mr.
and Mrs. Howard Atterbury. She
was a guest at the wedding of Mrs.
Edward L. Prentiss and Carl Hor-
tiz.

PAUL BROWN GIVES
\$50,000 TO SCHOOL

Marvin College at Frederick-
town Must Raise Equal
Amount in 90 Days.

A Gift of \$50,000 has been of-
fered Marvin College at Frederick-
town, Mo., by Paul Brown of 30
Washington terrace, invest-
ment broker, contingent upon the fac-
ulty raising an equal amount in the
next 90 days.

The contribution was offered af-
ter Mrs. Ruth Barnes, presi-
dent of the college, had explained to Brown
a proposed change in the policy of
the college which the Board of
Curators has had under discussion.

Self-Help Plan for Students.
A committee has been appointed
by the board to work out a plan
for introducing self-help features
into the college to make it pos-
sible for boys and girls of Missouri
to get an education at a nominal
cost, it being understood that the
students will work a certain num-
ber of hours a week under com-
petent supervision as a part payment
on tuition and board. The pur-
pose of the change is to put educa-
tion in the reach of many who
would not otherwise obtain it, and
at the same time to give training
to the hand as well as to the
head, and make the dignity of the
educational plan.

Plans have been adopted for a
campaign to meet the condition of
Brown's gift, and it is believed that
the proposition will meet with the
hearty response of all Methodists
of the St. Louis Conference.

Brown is a leading Methodist lay-
man of the St. Louis Conference
and a member of St. John's Church.
He has made other substantial
contributions to the Methodist
Episcopal Church, South, as evi-
dence of his confidence in its for-
ward movement. He recently made
a large contribution to the Super-
annuation Endowment.

Board of Curators of College.
The Board of Curators of Mar-

vin College, elected by the St.
Louis Annual Conference, are as
follows: The Rev. Ivan Lee Holt,

NO WAR OVER BESSARABIA

MOSCOW, April 10.—Russia will not fight Rumania over the question of Bessarabia, M. Zinoviev, president of the Executive Com-

mittee of the communist international, declared in a speech yesterday before the Leningrad soviet. "I make this declaration," he said, "in the name of the committee and in the belief that the soviet

government is in complete agreement therewith. Despite everything we are in full sympathy with the Russian workmen and peasants and their aspirations and we do not wish to shed their blood."

BAN ON PARKING
ON WASHINGTON
AVENUE LIKELY

Traffic Council Expected to
Issue Order Next Week
Affecting Downtown
Portion of Street.

EXPERIMENT ONLY
DURING RUSH HOURS

Object Is to Compare Results With Those of Olive Street Where Rule Is in Force From 7 A. M. to 7 P. M.

Elimination of parking in the mercantile district of Washington avenue during rush hours is being considered by the Traffic Council. It is thought likely the plan will be ordered next week as an experiment.

If this is done, a study will be made to compare the efficacy of the system and that now being tried on Olive street, east of Twelfth boulevard, where parking is forbidden altogether between 7 a. m. and 7 p. m. This plan and the one proposed for Washington avenue, like other orders of the council, are effective for 90 days, but can be replaced by ordinances making them permanent.

Details of the Plan.
The proposal is to prohibit all parking on Washington avenue, from the Eads Bridge approach, at Third street, to Eighteenth street, between 7 and 10 a. m. and between 4:30 and 7 p. m. The only start would prevent clogging of the thoroughfare at the time the morning rush of workers begins. Between 10 a. m. and 4:30 p. m. the one-hour parking rule of the congested district would be in effect, along with the provision for towing away and impounding cars parked more than two hours.

The Washington avenue plan was suggested to the Traffic Council yesterday by representatives of the Associated Retailers, numerous members of which have stores in lower Washington avenue. Their representatives stated that the association, realizing the city and Police Department have not sufficient men to keep an extended watch on parking, would be willing to employ 15 parking checkers.

Capt. Gerk of the Police Traffic Division told the council he wanted light motor cycles for policemen watching parking, so fewer men could cover more ground.

Signals Ordered Moved.
The council ordered the automatic traffic signals in use at Grand boulevard and Olive street removed to Grand and Lindell boulevards, because they have the effect of congesting Olive car traffic in their present position.

Thirteen automatic traffic signals will be installed soon at dangerous intersections. Seven will be of the four-unit type, as follows: Kingshighway and Page, Kingshighway and Natural Bridge, Eighteenth and Locust, Jefferson and Locust, Jefferson and Russell, Tower Grove and Shaw, Seventh and Sidney. Six of the single-unit type will be at Compton and Sidney, Goodfellow and Page, Newstead and Washington, Barmter and Belt, Seventh and Russell, Clara and Page. These are part of a lot of 60 ordered by the Police Department. Services of a number of policemen will be released by Representatives of taxicab companies were given another week to straighten out congestion caused by their rivalry for business at Union Station and hotels. Milling around loading points and parking abroad are objected to particularly. Drastic steps may be taken by the council, it is said, if the cab companies do not act.

Observers Note Improvement.
A statement from the Safety Council praises the ordinance under which the Traffic Council functions and declares that, keen observers have noted improvement in the driving of motorists in St. Louis during the last six months. More attention is being paid to courtesy and rules of the road, including boulevard stops, it is said.

The statement says the new provision that automobiles may pass street cars that are stopped for passengers, if there is an eight-foot clearance, has been called a hazard, but that experience shows it is a good thing because under the old system some drivers raced past waiting passengers to beat a car to a stop.

"BONUS" FOR NON-MARRIAGE
Salary Increase Offered Girl
Printers Is Refused.

MANFIELD, Mo., April 10.—Not with any plan to antagonize Dan Cupid or in any way interfere with his works, but simply to provide for a steady and reliable supply of assistance in his printing plant, Oliver B. Davis, editor of the Mansfield Mirror, has offered to pay his young women employees, beginning at once, two and one-half times their present weekly salary if they will sign a contract to stay with him 10 years and not marry themselves to be pierced with Cupid's darts.

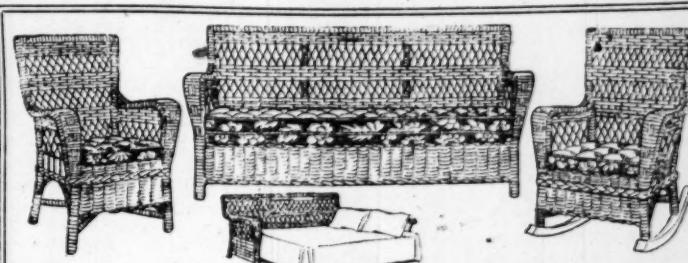

So far neither of two fair employees has signed the contract and both declare they never will.

This is the Iron—Price \$6.75

The word spreads from woman to woman "Hotpoint is the electric iron"

WOMEN who have used several electric irons will tell you that there is only one really modern iron on the market.

Hotpoint starts out with the idea that an iron must not only iron and iron well (hence the point is even hotter than the rest)—but that it must do it comfortably and with as little effort as possible.

That is why the Hotpoint Iron—and no other—has the strength-saving Cantilever Handle—allowing your muscles to be free and relaxed instead of cramped.

That is why the Hotpoint Iron has the Attached Heel Rest—to save you hundreds of pounds lifting in a morning's ironing.

And the Hinged Cord Plug with Ball Joint—preventing snarling and breaking of the cord. As well as other features that make your

ironing better and easier than you ever thought possible.

Here is proof again that women are quick to appreciate real help with their household work—there are more Hotpoint Irons sold than any other make.

SPRINGFIELD, Mo., April 15.—From reputed wealth of \$500,000 to nothing overnight, is the way E. L. Sanford of Springfield, president of the defunct Holland Banking Co., described the effect upon his personal fortune of the closing of that institution Jan. 15. "When I got through paying I will be practically broke," Sanford said to the Post-Dispatch in the first newspaper interview he has granted since the closing of the bank, which had stood as a financial Gibraltar around which were anchored more than 100 country correspondent banks and much of the business of the entire Ozark region, of which Springfield is the metropolis. It had aggregate resources, including deposits of \$2,400,000, of approximately \$6,500,000, of which \$2,000,000 is represented, according to the State Department of Finance, by securities of slow or doubtful value.

Sanford, who was chairman of the State Highway Commission, appointed by Gov. Gardner, for years has been regarded as one of the wealthier men of Springfield, one of the little group which really dominated financial affairs of this city. Started as Street Car Conductor. As a young man, Sanford was conductor on one of the horse-drawn street cars which plied back and forth between North and South Springfield. Even then he was an outstanding figure. For it was the day of the horse and buggy. On pleasant evenings it was customary for swains to take the better of their choice for a drive over what is known here as "the boulevard." Sanford, though not wealthy, had a horse that looked as good as any kept up and span, and a buggy similarly maintained. The harness was black and white, and he had a dashing white laprobe with his initials on it in black. It was one of the show outfits. It has been so from then to now. Sanford's country home, on the Division street road of Springfield, is one of the show places of the community. He had upon it a herd of the prettiest white-faced cattle in the Ozarks. He had four automobiles, three of them of the finest makes. He went to Europe a few years ago.

Recent Depositors' Hostility.

Now, shaken physically by the strain of recent months, he feels deeply the hostility of some of the depositors of the Holland Bank toward everybody connected with the bank and its closing. He regards it as unmerited by himself, at least, but is buoyed up somewhat by the loyalty to him of some of the leading business men who have been his friends and who, although prospective losers of at least part of their deposits, have remained constant to him. All agree that Sanford was captain, pilot and chief engineer of the bank. For, although in other years he had banking reverses, he had risen above his troubles and made his way back to the crest. So people here have waited anxiously for the time when Sanford would talk for publication.

At the time the Holland Bank closed, examiners found in the notes case a group of notes marked "Sanford special," aggregating \$173,000, and signed by Sanford. "Those notes represent part of the purchase price of stock I bought from Clarence Randle and Jake Hines, when I returned to the Holland about two years ago," said Sanford. "I had sold control of the bank to them about 18 months before, when I was getting ready to go to Europe. Then, later, I bought them out. I am going to pay those notes."

Borrowed to Help Farmers. "Some of the stock was up as security at banks away from here. Times got a little close, the loans were called and I had to take them up. But those notes are good. I have put a lot of my own money into the bank, having at one time taken out \$150,000 of stuff and put up my own securities to cover it. Not for my benefit, but for that of the bank. Harvest time came on soon after I returned to the bank and farmers in the Ozarks needed money to move crops. I borrowed \$1,500,000 to help them do it. This last year again money was needed and I borrowed \$1,000,000 in off the stage here."

Blames Story That Started Run. "We were going along pretty well. We had some slow paper and some that we wanted to charge off. I planned to increase the capital stock early this year from \$200,000 to \$500,000, which, with the \$150,000 I had on hand, would

have enabled us to clean it up pretty well. But somebody started that story that a run was on at the bank and a run did start, a slow gradual withdrawal. We did the best we could to meet it. It takes a lot of cash, you know, to run a \$7,000,000 bank. So we had to get cash. We were promised \$750,000 by local parties. Relying upon them, I didn't go East, where I

Deep down
under your skin
are the tiny nerves
that cause your itching

STUBBORN rashes, eczema, skin disorders small and serious! You cannot hope to relieve them with mere surface salves and remedies. It is below the outer surface of your skin that the real irritation lies—deep down where cells are clogged with poisonous germs, where tissues are swollen and inflamed. Yet there is a way that will bring almost immediate relief. To thousands of sufferers from every kind of skin affection, careful physicians are today recommending Resinol Ointment as a safe and effective remedy. Absolutely pure, healing, mildly antiseptic, Resinol will often soothe away in a day or so the most stubborn rash, or the most troubling blemish.

If you have today any spot, rash or irritation on your skin, try Resinol. Get a jar at your drug store today, or send for a free trial sample to Dept. 29, Resinol, Baltimore, Md.

Negro Merchant slain.
PATTEN, Mo., April 15.—George H. Stapleton, 55 years old, was shot and killed in his store yesterday. His wife confessed to the murder, saying that she shot him during an argument over financial matters. Stapleton was struck by four bullets, and died within a few minutes. Officers were searching for Lawrence Lacy, who arrived here from St. Louis Tuesday night and who was running from the rear of the store immediately after the shots were fired.

FEDERAL CHARGE OF MONOPOLY**Says Agreements With Other Con-
cerns Were Made Under Super-
vision of Government.

By the Associated Press.

WASHINGTON, April 10.—The
Radio Corporation of America to-
day filed with the Federal Trade
Commission a general denial of
charges of unfair methods in com-
petition made against it in a com-
plaint by the commission, and
asked for permission to produce
original agreements with other
concerns before making definite
answers to specific allegations
against it. More important agree-
ments complained of, the state-
ment said, were made under super-
vision of Government officials. The
corporation, it contended, was cre-
ated to perform a patriotic service
in the development of radio trans-
mission.The complaint named the Gen-
eral Electric Co., American Tele-
phone & Telegraph Co., Westing-
house Electric & Manufacturing
Co., Western Electric Co., Inter-
national Radio Telegraph Co., United
Fruit Co., Wireless Specialty Ap-
paratus Co., and the Radio Cor-
poration of America. It charged
them with having obtained patent
rights to all devices used in radio,
and with pooling and assigning
them to the various companies
named, until now the Radio Cor-
poration of America has the ex-
clusive right to market all radio
products of the other concerns
named.Transoceanic radio communi-
cation, the complaint said, has been
monopolized in this country by the
Radio Corporation through agree-
ments with other radio concerns,
and it added that the companies
named have sought to perpetuate
monopoly of various means of
radio communication and broad-
casting beyond the time covered by
existing patents now owned by
them, or under which they are
controlled.**AWARDS TO EXPLORERS**Medal Given to Man Who Descend-

Greater Than England's.

By the Associated Press.

NEW YORK, April 10.—The
United States jumped from sixth
to fourth place among the nations
in shipbuilding for the quarter
ending March 31, Lloyd's Register
of Shipping announced.While only 4.8 per cent of the
world's shipbuilding is being done
in the United States (the tonnage
being 119,000), as compared with
58.5 per cent in Great Britain and
Ireland and 36.7 per cent for all
other countries, the gain of this
country in tonnage under con-
struction was 28,000, or propor-
tionately more than England.
Lloyd's report showed. The total
of 2,516,000 gross tons for all coun-
tries compares with 2,162,000 tons
for the quarter ending just before
the world war.**FOR SEGREGATION OF GIRLS**Appeals to Take Them Out of De-
tention Home.Mayor Kiel has received requests
from the Kiwanis and "Papa"
Clubs for complete segregation of
boys and girls at the Children's De-
tention Home. It was pointed out
that although boys and girls are
now housed on different floors,
they meet during school hours and
their influence on each other is
bad. "Appalling moral conditions
have resulted," it was asserted.The Mayor believes girls should
be housed apart from the boys. He
thinks they can be cared for on
the fourth floor of the Municipal
Lodging House from now until
next October, when that building
will be thrown open again to the
homeless. Some other arrange-

**MOST PITIFUL
SIGHT IN LIFE**

is a man or woman who
has no "will power" as a
result of nerve force
exhaustion

All the physical suffering which may
be caused by nervous irritability, head-
aches, backaches, indigestion, heart
palpitation, etc., as a result of nerve
force exhaustion, are nothing as com-
pared with its awful effects upon the
mind and "will power."

"The most pitiful sight" in life is a
man or woman who has "no will"
who has no impulse and desires but
not enough "will power" to carry them
through. The memory also fails, the
judgment is bad and everything there-
fore seems to go wrong.

In such cases, do not take more stim-
ulating medicines nor narcotic drugs
(which only further injure your delicate
nervous system), but what you need is
something to put more nerve force in-
to your nerves and more iron into your
blood to help make new nerve force
with which to feed your starving nerve
cells. This is most effectively accom-
plished by the free use of Nuxated
Iron. This valuable product contains
the principal chemical constituent of
active living nerve force in a form
which most resembles that in the brain
and nerve cells of man. It also con-
tains strength-giving organic iron for
the blood and may therefore be said to
be both a blood and a nerve food. Over
4,000,000 people are using it annually.
Satisfactory results are guaranteed to
every purchaser or the manufacturers
will refund your money. Beware of
substitutes. Look for the word "Nux-
ated" on every package. Sold by all
druggists.

WOMAN, THROWN FROM AUTO IN CRASH, DIES

Mrs. Minnie Edelman, 32, Suffered Fractured Skull in Accident Saturday.

Mrs. Minnie Edelman, 32 years old, of 2616 North Twenty-second street, died at city hospital yesterday from a skull fracture suffered Saturday night when thrown from the rear seat of her husband's automobile.

The husband, Louis Edelman, a mechanic, said at city hospital that as he was driving north in the rain in front of 2125 South Broadway, with his mother-in-law, wife and 7-year-old son, his machine was sideswiped by another automobile. He managed to right it and drive on, without knowing that Mrs. Edelman had been thrown out until the small son called from the rear seat. "Oh, papa, mamma is out," he cried. Stopping, he said, he found Mrs. Edelman semi-conscious at the scene of the accident, half a block away.

Police reported Edelman collided with an automobile parked in front of the South Broadway address, and relatives today said they understood the accident had been caused when Edelman, in making a turn there, struck glancingly a car parked at such an angle as to obscure its parking light.

DRIVER FREED OF CHARGE OF FLEEING AFTER AN ACCIDENT

Court Instructs Verdict of Acquittal at Close of State's Testimony Against William Proutka.

An instructed verdict of not guilty was returned yesterday in the case of William Proutka, 19, a chauffeur, of 1719 South Eighteenth street, charged with felonious flight from the scene of an accident. Circuit Judge Hamilton directed the verdict at the conclusion of the State's case, no evidence having been produced to connect Proutka with the accident.

Proutka was arrested following an automobile accident in which Calvin Bohawn, 8 years old, of 799 South Broadway, was injured Oct. 30 last. After the accident a man took the boy to an automobile repair shop at 527 South Broadway and left him there. The man then ran away.

August Wunderlic, who was in charge of the repair shop, gave the police a description of the man which resulted in the arrest of Proutka. On the witness stand, Wunderlic, the State's only witness, testified that the automobile in which the man brought the boy to the repair shop was a one-ton truck. He further testified the man spoke with a foreign accent. Proutka speaks good English and it was shown by the evidence that he was driving a light delivery truck at the time of the accident.

TURKEY SOON TO BE WET

Saloons to Be Licensed and Drunkenness Punished.

CONSTANTINOPLE, April 10.—Turkey shortly will cease to be dry under a new law sanctioned Tuesday by the Assembly. The prohibition experiment proved inapplicable, as well as causing a loss in revenue. The new law considers first this latter aspect. Import duties are increased 12 times and the excise tax four times.

Licenses for drinking bars are established and public drunkenness is punishable by a fine of 16 (about \$30). Informers against persons smuggling or concealing stocks of liquor will be rewarded by half the fine imposed. Within three months a State monopoly on the manufacture, import and sale of alcohol will be established.

NORRIS WON BY 2 TO 1 VOTE

Coolidge 30,000 Ahead of Johnson in Nebraska.

By the Associated Press. OMAHA, Neb., April 10.—Unofficial returns of the Tuesday primary today showed that John J. Thomas of Seward was nominated as Democratic candidate for the United States Senate over Kenneth McDonald of Bridgeport, 1795 of the State's 1936 precincts giving him 28,745 votes compared to 18,509 for McDonald.

With 1674 precincts reported on the Republican presidential preference, President Coolidge had 71,028, while Senator Hiram Johnson of California had 41,661. Senator George W. Norris had Charles Sloan of Geneva better than two to one for the Republican Senatorial nomination, 1688 precincts giving Norris 34,225 and Sloan 28,907. Gov. Charles W. Bryan was the Democratic gubernatorial nominee while Adam McMullen of Beatrice won the Republican nomination.

Ask Severances in County Cases.

Jules Schoenbein, former Constable of Central Township, St. Louis County, and Albert W. Weinmeyer, chairman of the St. Louis County Central Committee, yesterday filed motions for severances in the blanket indictment returned against 73 county residents charging frauds in the 1932 primary election. Two defendants, who secured severances previously, have been acquitted by order of court because the State refused to present its case.

Easier Than That!

Much easier. The truth is if you want to be sure to steer clear of disappointment, if you want success in every household use to which you put a malt

extract—if you want to be right the first time and every time after that, any man who has made a good malt extract in life will tell you—

White Banner Malt Extract

is the nobility of all such. White Banner is a veritable Henry of Navarre—towering over all the little fry, and for such a simple reason. Just because it is as good as the 68-year old company

which turns it out can make it. And what an easy guide to follow. We know it. "Don't make goods for profit," says the maker of White Banner. "Make them to make friends and the profit will follow."

White Banner is Union Made—100 per cent pure and comes in full 3-lb. cans. Sold by all Grocery Stores and Delicatessens.

Wherever You Go You See Krauter Pliers

IN the tool boxes of innumerable motor cars—in thousands of factories, repair shops and garages—you will find KRAEUTER PLIERS.

You won't have to ask if they're KRAEUTER'S! You can tell by their graceful, business-like design—by their sharp, unbroken teeth—by their clean cut, careful workmanship—and by their distinctive handle design.

The reason why Krauter Pliers are so universally used, is that they are forged of special steel, scientifically hardened, and heat treated—handles and all. The teeth will neither smash down from softness, or break off from over-hardness. They "stand up" and grip hard—through years of constant use.

Employee of Electrical Firm Admits Taking Articles Worth \$10,000.

A "look" at the Manhattan Electrical Supply Co., 1106 Pine street, through which \$10,000 worth of merchandise has disappeared in 21 months, is believed to have been stopped yesterday with the arrest of an employee of the company and two hardware dealers.

The employee, Charles Herman, 32 years old, a checker and packer, was arrested as he was leaving work by city Detectives Finan and Newman, who had been watching him for 10 days. In his pockets were \$10 worth of porcelain taken from stock. He admitted stealing merchandise and said he received about \$3000 from it from Eli Kopman and David Silverman, who have hardware stores at 7014 Franklin avenue and 1529 Franklin avenue, respectively. Small quantities of stolen merchandise were recovered from the stores and at Herman's home.

Herman, the father of 11 children, five of them living, has been employed by the Manhattan Co. for four and a half years at \$24 a week, he said. About 21 months ago when his wife, and a son who was gassed in France, became ill, Herman began taking merchandise from stock and selling it to meet expenses. At first he sold only to Kopman, from whom he received an average of \$21 a week, he said. Six weeks ago he began selling to Silverman, too, and doubled his outside income.

Clarence H. Wilson, head of the Manhattan firm, estimated the stolen merchandise aggregated \$10,000. Herman, admitting this estimate was about right, said he received only \$3000 from Kopman and Silverman. He said he spent all the \$3000, with the exception of an occasional Saturday night drink of "home-brew," on his family.

Warrants charging Herman with larceny and the two dealers with conspiracy have been issued.

BUS SERVICE FROM ST. LOUIS
TO COLUMBIA INAUGURATED

Maiden Trip of Vehicle Which Departed at 8 a. m. Was Without a Passenger.

The maiden trip of the St. Louis to Columbia, Mo., bus line was chaperoned only by its manager, R. L. Wheeler, 324 Laurel street, and a chauffeur when the bus left Hotel Jefferson at 8 a. m. today with the Boone Tavern as its destination.

Maiden voyages are seldom high peaks of success and Wheeler was not particularly downcast because the seats set out for passengers looked like the Sportsmans' Park grandstand with Philadelphia playing here. It was a least possible that, failing to bring St. Louisans to Columbia, he might bring Columbians to St. Louis.

at 8 a. m. daily and arrive in Columbia about 1:30 p. m. He will remain there for an hour or more and then return to St. Louis, arriving about 8:30 p. m. The route is through St. Charles, Wentzville, Warrenton, Fort St. Vrain, and High Hills. The charge for the round-trip is \$10. The bus has a seating capacity of 15 persons.

The distance from St. Louis to Columbia is 134 miles. Wheeler and his chauffeur expect to have company on their next trip.

Announcing A NEW Electric Cooker

It Cooks a Whole Meal From Your Lamp Socket

Think of preparing a meal consisting of a roast and three kinds of vegetables at one operation and at a cost averaging less than 2 cents an hour! That is what this new Universal Electric Cooker makes possible. It attaches to any electrical outlet in your home and does all sorts of cooking as perfectly as a large range. This complete Cooking Unit includes

24 Aluminum Cooking Utensils

Each cooking process is exactly as it should be. Roasts are well-browned on the outside—rare or well done, as you wish, on the inside. Steaks are actually broiled—not steamed. Bread, biscuit, cake and pastries are light and tasty—a perfect golden brown.

See It in Operation at Our Store

For a time, a special factory representative will cook for you and will explain the many uses of this cooker. Remember the Universal Electric Cooker is not a fireless cooker, nor a pressure cooker. It is a remarkable, new electric home convenience.

RHEUMATIC PAINS GO QUICKLY WITH ALESSANDRO VOLTA'S DISCOVERY

No Medicines to Take. Results Guaranteed by Local Druggists.

An amazing new treatment for Rheumatism has been received in this country from Italy. This new scientific discovery promises to put an end to terrible rheumatic suffering in even the most stubborn cases. Alessandro Volta, the well-known Italian physicist, for whom the electric volt has been named, discovered a scientific combination of certain ingredients in the form of a fine powder that is intended to be a powerful and active Uric Acid solvent. This discovery he has called Volta. It is not to be taken internally, but is shaken into the shoes or stockings and is intended to be absorbed into the blood through the pores of the feet. This absorption is aided by the fact that the soles of the feet contain over 10 times the number of pores found in any other part of the body.

So remarkable and rapid have been the results from the use of Volta powder, both in this country and in Italy, that the American distributors have authorized local druggists to dispense Volta with an unqualified guarantee of relief from the use of the very first package or your money will be refunded.

If you suffer from rheumatic pains, Sciatica, Lumbago, Gout or Neuralgia, you owe it to yourself to try this remarkable scientific treatment. It is absolutely harmless and will not cost one cent if you do not receive wonderful relief.

You can get a box of Volta from such good druggists as Wolff-Wilson Drug Co., Judge & Dolph Drug Stores, Johnson Bros. Drug Co., Keiffer Drug Co.

ONLY NINE G. O. P. COMMITTEEMEN ON CITY PAYROLL

Four Years Ago About This Time 20 Were Drawing Pay at Total of \$74,470 Yearly.

TWO ARE NOW HOLDING STATE JOBS

Some Have Gone Into More Lucrative Pursuits and Others Quit Party Posts When Elected to Office.

Holding of public office by Republican City Committeemen isn't so general as it used to be. Only nine of the 28 members of the Republican City Committee have municipal jobs now. Their pay aggregates \$28,770 a year. Two others have State jobs at \$2400 a year each.

Four years ago, when, as now, it was only a matter of months before the primary election in which committeemen are chosen, 20 of the committeemen were drawing pay for city jobs in the total sum of \$74,470 a year. Three years before that, in 1917, 18 committeemen were receiving \$50,750 annually from the municipality. It is expected that those committeemen now on the public payroll will run again this year for their party positions, in order to keep a tight hold on to city jobs. However, they will have plenty of competition for places on the committee.

Pape and Oetting Head List.
Park Commissioner Pape and Supply Commissioner Oetting head the list, since they are paid \$5000 a year each. Furthermore, increases to \$6000 for them were recommended by the Board of Estimate and Apportionment Tuesday. On the committee they represent, respectively, the Eleventh and the Second wards.

Pape was appointed Park Commissioner by former Director of Public Welfare Schmoll, who was then chairman of the committee. Schmoll, who is now Circuit Clerk, is no longer a committeeman. Oetting was appointed Supply Commissioner by Mayor Kiel.

Anton Schuler, committeeman from the Sixth Ward, is City Marshal at \$4000 a year, by appointment of the Mayor.

Gabe Roth, committeeman from the Fifth Ward, is Constable of the Fifth District, by election, at \$2400 a year.

Others Holding Minor Jobs.
The other committeemen holding city jobs by appointment are: Nick Polito, Fourth Ward, Superintendent of Street Department at \$2700 a year.

Louis (Tub) Becker, Deputy Circuit Clerk at \$2375 a year.

Richard Smart, Ninth Ward, Deputy Circuit Clerk at \$2375 a year.

Charles Kallman, Twenty-fifth Ward, Deputy Jury Commissioner at \$2340 a year.

Charles Gillespie, Twenty-eighth Ward, ordinance draftsman in office of the president of Board of Public Service at \$2330 a year.

Those Who Have State Jobs.
The Committeemen who have State jobs at \$2400 a year each, being Deputy State Food Inspectors, are: Herman Meuser, Thirtieth Ward, and George Hohmann, Twenty-second Ward.

A number of Committeemen have given up their public jobs in the last several years, some of them going into more lucrative pursuits, and two officeholders who had been committeemen, did not run for the committee in the 1923 primary.

Members of the present City Committee who have quit public jobs are: Walter Bischof, Third Ward, resigned as a Deputy Marshal at \$1500 a year about two years ago; Nat Goldstein, Nineteenth Ward, former Circuit Clerk at \$5000 a year, who did not oppose Clerk Schmoll's candidacy; Robert E. (Bobby) Moore, Sixteenth Ward, courtroom clerk in the Juvenile Court till Dec. 31, 1922, at \$2500 a year, who was Goldstein's companion as a Lowden "gold dust twin"; John J. Hurley, Twentieth Ward, formerly a clerk for the Election Board at \$5 a day; Louis J. Becker, Twenty-seventh Ward, former chairman of the committee, who used to be secretary at \$2400 a year to Street Commissioner Slater, whose brother is a committeeman; John E. Johnson, Twenty-fifth Ward, former holder of various city jobs, who was defeated for committeeman in 1922.

Two Didn't Seek Re-election.
Clerk Bader of the Circuit Court for Criminal Causes, a \$3000 job, who was Twenty-first Ward committeeman for years, did not run for the committee in the last primary, nor did Director of Public Safety McKelvey, Twenty-third Ward, whose salary as director is \$8000 a year.

Others who were among the 20 job-holding committeemen four years ago, who still have their jobs, but were defeated for places on the committee, are: Assistant Circuit Attorney I. Joel Wilson, Twenty-sixth Ward; Clerk Edgar Nicolai of the Board of Aldermen, Fourteenth Ward; Elmer Monroe, Deputy Circuit Clerk, Twentieth

Ward. In addition, William Troll, who quit as a Deputy Collector six months ago, and who was a committeeman four years ago, did not run for re-election.

DEPUTY CONSTABLE FREED OF CHARGE OF EXTORTION

Indictment of Oliver de Suza Based on His Collection of Costs From Motorist.

Oliver de Suza, Deputy Constable of Bonhomme Township, St. Louis County, was acquitted of a charge of extortion yesterday by a jury in Circuit Judge McElhinney's court at Clayton.

De Suza's indictment, returned last November, was based upon his collection of costs amounting to \$250 in a speeding case against L. R. Holloway of Nashville, Ill. Following the arrest of Holloway, De Suza took him to Justice of the Peace Blinn's court, and in the absence of the Justice, collected the costs. He made the proper division of the money, giving \$1 to Constable Holman, \$3.10 to Justice Blinn and retaining \$3.50 himself. De Suza testified he had unwittingly violated the law by assessing the costs and his acquittal followed.

Do Your Children's Clothes Soil Quickly?

THERE is a new starch discovery that will keep your children's dainty wash clothes looking like new.

Just ask your grocer for Linit—the new and different starch which makes even ordinary cotton goods look and feel like linen.

Because Linit eliminates lint, your children's clothes will stay clean much longer.

Linit is nothing like old-fashioned starches. It never clots or smears on the surface of fabrics. To the contrary, the Linit mixture is thin and free-running like water and penetrates each thread of the material—strengthens the fabric and makes it wear longer.

You will find Linit to be the economical starch. A little goes much farther than a similar amount of old-fashioned starches.

LINIT costs 10c at all Grocers. Get a package and begin the modern way of starching your fabrics. You will never go back to the old-fashioned starching.

ALLEGES EFFORT TO GET CONTROL OF HOME

Woman Asks Police to Arrest
Man Who Called Several
Times With Paper.

Somebody is trying to get hold of the two-story brick house at 2630 Hebert street and, fearing that he may succeed, Mrs. Lillian Headen, who occupies part of the house, has asked the police to arrest the man if he comes around the house any more.

The property belongs to Mrs. Headen's mother, Mrs. Mary Garrett, 65 years old, who lives downstairs. It was left to Mrs. Garrett by her husband, George Garrett, a range-maker, who has been dead seven years.

Mrs. Headen says she does not know the man. Perhaps there are several persons involved, she says, because different men have been coming to the house on different occasions. They all claim to have Mrs. Garrett's signature to options on the property.

Daughter Tells of Calls.
"The first man came here a short time after my father's death," Mrs. Headen told a reporter today. "He showed me a letter, purporting to bear my mother's signature, offering the house for \$500. My mother said she did not sign the paper, so I watched it from the man's hand and slammed the door in his face."

"Other men have called at various times, all asserting that my mother had offered to sell the property. Last Monday a man came to the house and showed me a paper to which my mother's name was signed, offering to sell the house for \$1000. My mother said she did not sign the paper. I took it away from the man and tore it up."

Letter Received by Mother.
"Tuesday another man drove up in an automobile and rang the doorbell. We did not answer. Later in the day my mother received a letter, unsigned, calling her names and threatening to get the property at all events. 'I don't know what to make of it. My mother is feeble and she is not able to manage her property. I am going to have my mother transfer the property to me as her trustee. We don't want to sell this property. We have been offered as much as \$5500 for it, but we refused to sell. I wish the police would keep those men away from here.'"

BODY FOUND IN RIVER THAT OF WASHINGTON (MO.) WOMAN

Miss Mary Kasei Quarreled With
Man and Disappeared Last
November.

Solved by the Post-Dispatch.

CAPE GIRARDEAU, Mo., April 10.—The body of a woman recovered four days ago from the Mississippi River at Norfolk Landing, 45 miles south of here, and buried at Charleston, Mississippi County, was identified today as that of Miss Mary Kasei, 34 years old, a milliner, who disappeared from Washington, Mo., on November 2.

The body is believed to have floated 200 miles from Washington, which is on the Missouri River, to Norfolk Landing. It bore bruises which gave rise to theories of violence, but which are now thought to have been caused by ice in the river.

The identification was made by the mother and a sister of the missing woman, who had a chart of her teeth and a description of her shoes. They went to Charleston, after reading newspaper stories of the body's recovery, and had it disinterred. Shortly before her disappearance, Miss Kasei and a man with whom she had been keeping company, quarreled and thereafter she appeared despondent. On the evening of November 2 she closed her millinery shop at Washington, walked out and never was seen alive again. A reward of \$100 was offered and this probably will be paid to John Ripperdam, a farmer at Norfolk Landing, who found the body.

WOMAN FAINTS IN COURT

Damage Suit of Mrs. Jennie Welty Is Redocketed.

Mrs. Jennie Welty, 4734 Howard street, fainted today in Circuit Judge Kilgore's court as she left the witness stand after testifying in her \$20,000 damage suit against the United Railways. On motion of the defense the jury was discharged and the case redocketed for trial on April 21.

Mrs. Welty was a passenger on a Wellston street car on July 23 last, when it stopped to take her at the Wellston loop. Through carelessness on the part of the crew, she testified, the car started while the air hose was still attached. An explosion followed and she alleged she was severely injured when panicked passengers trampled upon her.

State, City and School Heads To Watch Billikens and Pikers Battle for City Basket Honors

Mayor, Lieutenant-Governor, Archbishop Glennon and Other Notable Persons Have Accepted Invitations to Attend — Both Varsity and School Fives in Fine Condition.

In the history of St. Louis district basketball no event ever held has attracted so many distinguished guests as have signified their intention to be present, tonight, at the Coliseum, where the Washington and St. Louis University teams will compete for the city championship, after all-star teams from the St. Louis and County high schools have battled in a curtain raiser.

Acceptances of invitations to be present received thus far include Lieutenant-Governor Hiram Lloyd, Mayor Henry Kiel, Archbishop Glennon, Chancellor Herbert S. Hadley of Washington University, Father Robinson, president of St. Louis University, Superintendent of St. Louis Public Schools, John J. Maddox, and Superintendent of County Public Schools, E. H. Beumer.

Gov. Hyde, in delegating Lieutenant-Governor Lloyd to represent him, wrote the Olympic Fives Committee, which is in charge of arrangements, and to whom the receipts will be turned over, as follows:

"On account of the pressure of public duties, it is impossible for me personally to attend the game between Washington and St. Louis universities. I congratulate the people of St. Louis upon the resumption of relationship between these two great universities. I regard the matter as very important to their development and am requesting Hon. Hiram Lloyd, Lieutenant-Governor, to attend the game as representing the executive department of the State."

ARTHUR M. HYDE.

Game Off, for Four Hours.

While the varsity game is an exhibition affair, the contest has been taken seriously by both institutions and the victory undoubtedly will consider themselves the city champions. The intensity of interest in the event was manifested yesterday when the contest at one time was called off, Washington University declining to withdraw from the game as the referee could not be agreed upon. Washington wanted an out-of-town man to handle the game, but the Olympic Committee insisted that a St. Louis man be agreed upon as a matter of economy, since the purpose of the game was to swell the Olympic Fund.

Captains of Rival Varsity Teams Will Not be in Opening Lineups

Washington University enters the match tonight slightly handicapped by the absence of Jack Minner, captain and star scoring player. However, Coach Don White said yesterday that he would have no all-time offer if his five were beaten for he was convinced that the team that faces St. Louis University will be about as strong as Washington can put in the field. Despite this sportsmanlike view, the Pikers can hardly be at the peak of their power with Minner on the side lines.

Washington had a workout yesterday and the coach expressed satisfaction with the condition of his men. Both teams worked under a handicap for the contest as the season for both closed a month ago and the fives had lapsed in their training.

Eagles Not to Start Game.

For tonight's game Coach Savage of St. Louis University has announced one change in his previous release lineup, that of W. Bradburn at forward instead of Capt. Egler to start the contest. The lineup will appear before the first half is ended, however. The Billikens will therefore start as follows: V. Bradburn and W. Bradburn, forwards; Kapl, center; Stanton and O'Toole, guards.

Layton Wins Two From Kieckhefer

Scores 100 Points in 74 Innings — Meets Jackson Today.

Johnny Layton won with surprising ease from Augie Kieckhefer of Chicago yesterday in two National Three-Cushion Billiard League matches at the Layton-McEniry parlors. The afternoon score was 50 to 31 in 34 innings, and the evening score 50 to 21 in 40 innings. It was one of Layton's best performances this season.

Charles Ellis of Pittsburg was held to an even break by Gus Copulos of Cleveland yesterday. The scores were: Ellis, 50-44; Copulos, 42-44. Copulos 50-45; Ellis, 44-45.

Facts About Double Basketball Bill at Coliseum, Tonight

FIRST GAME—All St. Louis High School five vs. All-County High School team. Starting time, 8 o'clock.

SECOND GAME—St. Louis University five vs. Washington University team.

TITLE AT STAKE—Winners will be regarded as the city champions.

RECEIPTS—The net profits of the game will go to the Olympic Fund, the St. Louis quota to be raised being \$20,000.

SEAT PRICES—All reserved, arena, and box seats, \$1.00, at the Coliseum box office. Balconies, 75 and 50 cents.

Probable lineups:

ST. LOUIS COUNTY HIGH. Cristol (C), J. Greuniger (C), Connor (C), J. Newberry (M), Cameron (C), C. Sonne (W), Hill (McK), G. Maschoff (K), Williams (C), G. Miller (N).

SECOND GAME. WASHINGTON, ST. LOUIS. Winkler, F. V. Bradburn, Cox, F. V. Bradburn, Seago, C. Stanton, Well, G. O'Toole.

pose of the game was to swell the Olympic Fund.

The Washington officials withdrew from the match at 5:20 o'clock and for four hours or more the game was off. Then the chairman B. F. Huff of the Olympic Committee, appealed to Chancellor Hadley and through his intervention it was agreed to allow the committee to name the referee.

Floor New to Billikens.

Savage makes no prediction concerning the outcome but says his men will "be in there" every minute of play and win or lose, no all-time offer will be forthcoming from the Billikens camp. The squad has not had an opportunity to test out the Coliseum floor but should find it a great handicap as the Army court where they have played all season is fairly large.

Of almost equal interest with the varsity game is the High School game. This was arranged through the cooperation of the city and county public school superintendents, both of whom took a keen interest in the game.

Through the public school principals and coaches an all-star team was named, while the county team was named by the problem of naming one boy from each of the eight high schools, from whom five will be selected for tonight's opening lineup.

The rivalry between the city and county boys is scarcely less keen than that between the varsity fives. The county coaches, headed by Roberts of Webster, have been preparing the county team. Coach Pennington has been handling the local high school galaxy of stars.

The high school game will start at 8 o'clock.

Carpenter Arrives in Vienna, On May 6, For Townley Bout

By the Associated Press.

VIENNA, April 10.—The coming bout here between Georges Carpenter and Arthur Townley, British light-heavyweight, promises to be the biggest sporting event ever held in the Austrian capital. The reluctance of the police to sanction the fight has been overcome, sportsmen hope it will prove the first of a number of big international matches here.

The immense oval on the "Hofburg" from whose new concert stand 60,000 spectators can get a good view, will provide as good a ring as can be found anywhere, they say.

Carpenter is due on May 6 with his manager, Domschke, and his usual staff, and after a preliminary welcome at Innsbruck he will be received by leading Austrian sportsmen. The police are making great plans to handle the expected crowds at the railway terminal and have even suggested that the former world champion be taken to his hotel in an airplane.

Pikers Who Will Face the Billikens Tonight

Left to right—Weil, Lyle, Cox, Winkler and Wagener. Seago, who does not appear in the group, will probably start at center. This is the regular Washington U. lineup, except for Capt. Jack Minner who will not be able to play because of illness.

Bierman Heads Piker Net Team

Manager Kammann Announces Hard Schedule and Names of This Year's Eligibles.

The tennis team of Washington University will be kept very busy during the months of April and May, according to the schedule of matches already arranged. In addition to the Missouri Valley Conference championship at Lincoln, Neb., the Pikers will play 14 contests against college and local club teams.

Karl P. Kammann, the 1923 captain and present holder of the Missouri Valley Conference singles title, has been appointed student manager. Owing to the fact that he has played three years of tennis Kammann is not eligible for the team.

William Bierman, former St. Louis junior champion, has been elected captain of the Piker team. Among the other players who have expressed a desire to try for this year's team are Jack Minner and the Hallauer, the basketball men; Jack Forrester, former county high school star; Jack Smith, who played on the Solidan team two years ago; Hartman Gould, former national champion; Arthur Schmitt, Jr., Korb, Clifford, Beuch, Junior Chamber of Commerce star, and Charles van Doeren, who hails from Tulsa, Ok.

Although they have not reported to Kammann, it is likely that Bert Hopkins and George Pasmore may also try for the Piker team. Hopkins won the St. Louis County High School title two years ago and was runner-up in the local district Junior event in 1922. Pasmore is a former St. Louis intercollegiate, Solidan High and Western Military Athletic Union star.

The Washington University tennis schedule is as follows:

April 19—O'Fallon Park T. C.
April 23—Varsity vs. Freeman.
April 26—Varsity vs. Alumni.
April 28—Drake vs. Des Moines.
April 30—Ames at Ames, Iowa.
May 2—Mills at Decatur.
May 6—Missouri at St. Louis.
May 10—Missouri at Columbia.
May 12—Kansas at Lawrence.
May 15—Washington at Topeka.
May 18—Kansas at Topeka.
May 22—Missouri Valley Conference at Lincoln, Neb.

ST. LOUIS INVITED TO ATTEND EASTERN SOCCER GATHERING

That the plan for a close relationship between the two major professional soccer organizations, the American League and the St. Louis League, will soon take concrete form is indicated today by the invitation sent President Barker of the local organization to attend a meeting of the American League at New York Saturday evening. It is expected that steps will be taken at this gathering to cement cordial relations and outline a plan for inter-league games.

Barker has notified the American League that St. Louis will be represented by T. W. Cahill and is familiar with the desires and interests of the local league.

At this meeting the American League will arrange dates for a St. Louis team which will tour the East this month. The selection of the local organization to attend a meeting of the American League at New York Saturday evening. It is expected that steps will be taken at this gathering to cement cordial relations and outline a plan for inter-league games.

HELLFRICH ELIGIBLE FOR PENN RELAY MEET; STAR TEAMS ENTERED

By the Associated Press.

NEW YORK, April 10.—Announcement that Hellfrich of Penn State is eligible for the Penn relay means that Penn will furnish additional thrills in what already has promised to be an exciting relay race.

Nate Carmell figures on Hellfrich, Enck, who has been doing such brilliant running this winter, and Barker, for three of his men. He claims to have a fourth man, possibly Moore or Barclay, who will match up with the other three.

With the crack Georgetown relay team and several other good ones entered, the two-mile relay will undoubtedly be a great race, and there is every prospect that the present record of 7m 48.4-55, held by Penn, will be lowered.

12 Special Bouts On S. B. A. C. Card

Eddie Kaiser, Lang, Klaesner and Others on Amateur Program.

One of the most promising amateur boxing programs of the season is scheduled to be held at the South Broadway Athletic Club this evening. Several of the main events will bring together boys from East Side towns and local fights.

Eddie Kaiser, who has not appeared in a local ring since Gus Pirrone won a point decision over him in a municipal show over months ago, will mix with J. McGee of Hillsboro, Ill., Paul Lang and Robert Smith of Hillsboro are also expected to put up a thrilling exhibition.

The Western A. A. U. committee will soon select the team which will represent this district in the National A. A. U. tournament at Boston and the showing of the boxers tonight will be watched with greater interest.

FOUR BIG TEN TEAMS IN KANSAS RELAY MEET

By the Associated Press.

LAWRENCE, Kan., April 10.—Teams from all sections of the country are entered in the second annual Kansas relays, the first major outdoor event of the year here April 19. Entries closed last night and will be announced after an official checking.

Nearly 50 universities and colleges had entered last night and besides these teams there will be those of numerous military academies and high schools.

Every member of the Missouri Valley Conference except Missouri had entered a few hours before entries closed. Northwestern, Wisconsin, Iowa and Minnesota of the Western Conference are entered for more relays, and several special events and all points of the compass are represented by Dartmouth in the East, Texas University in the South, Oregon Aggies and Occidental College on the Pacific Coast and Minnesota on the North.

Notre Dame, one of the late entries, is expected to give Texas, winner of the meet last year, a great race in this event.

DR. LASKER WINS FROM

YATES IN CHESS EVENT

By the Associated Press.
NEW YORK, April 10.—With five rounds to play, Dr. Emanuel Lasker of Germany holds a full lead of one and one-half games and seems a probable winner of the International Chess Masters' tournament. The Capablanca of Cuba, world's champion, has a one-game lead over Alexander Alekhine of Russia, who are tied for third place. Frank Marshall of New York heads a group of four who will fight during the remainder of the tournament for fifth place and the last slice of prize money. The odds are Elatin Bogoljubow of Ukrania, Dr. Savelly Tartakower of Austria and Gena Maroczy of Hungary.

HOW MUCH FOR A RACE HORSE?

Fortune Winners Bought for a Song.

It's not uncommon for a race horse who has seen his day to be shuffled off to some horse dealer for practically nothing, but there are some far more interesting yarns told about horses picked up for a little sum of change and developed later on into winners.

Take the case of R. T. C. In 1911 he cleaned up everything in sight on the big track. And that came after he was once an ordinary plow horse. During his prime he hung a mark of 2:06½ trotting.

The farm boys who drove R. T. C. farmed him had plenty of speed along the country roads. He began by beating a lot of nags with nice progress and then some one took a chance at him and said that he looked like a good prospect, and with more training and patience he came to the Circuit and proved a sensation.

Another good story. This was the 1922 world's champion racing mare, Secret Dillon, record, 1:58½. She was bought for \$100 as a year-

He Will Probably
Be the Brownies
Pitcher Saturday

DAVE DANFORTH.

Leading southpaw on George Sisler's staff. He is first choice to oppose the Cardinals in the first spring series game at Sportsman's Park.

Tobin, Williams, Jacobson, Bennett and Evans, Coaches Austin and Thomas, Trainer Brinnell and Secretary Johnson bring the total to 32.

The list is the nearest thing to a definite statement issued by Sisler that he will be in the opening day batting order. Sisler said today he would use his regulars against the Cardinals with the exception of pitchers, possibly using recruits to save his regulars for the league season.

Sisler said this morning that he intended to use Pat Collins more frequently this season so that if Severed were injured Collins would be better prepared to step in. In other words, he intends to have two first-string outliners instead of one regular and two bench warmers.

By Leased Wire From the New York Bureau of the Post-Dispatch.
NEW YORK, April 10.—While Hoppe is still the master of the billiard world. He piled up 500 points to 16 for Edouard Horemans, challenger, in the second block of their 1500-point match for the world's 18.2 ballroom championship, before a big and demonstrative crowd, in the Pennsylvania Hotel ballroom last night. The total score now stands 1000 to 440 for Hoppe.

Hoppe has a challenger here, beaten so badly in a single block of a championship match. Jake Schaefer once beat Walker C. Carran 400 to 9 in a title tourney, which is the modern record.

Hoppe gave a marvelous exhibition of billiards—Hille Horemans looked on, occasionally varying the monotony of this sedentary existence by a moment or two at the table arranging the balls for another high run by Hoppe.

The Belgian simply could not make the balls behave.

Hoppe Now 100 to 1.

Hoppe now leads in the match by a margin of 1000 points to 440.

When the men went to the table last night the odds on Hoppe to successfully defend his title were 5 to 1. He is now quoted at 100 to 1 and there will be no foolish bets.

The champion was a dramatic figure, as he clicked off point after point with scientific skill, while the challenger was pathos as he slumped in his chair and saw defeat looming large ahead of him.

Hoppe's most brilliant run came in the third inning when he tallied 175 points with a pretty exhibition of line nursing and oneable play when that demanded such shooting.

Time after time he brought applause from the galleries when he banged the balls around the table for the point and clustered them together for another run by delicate shooting.

Hoppe Averages Over 45.

He was over 100 again in the fourth inning, had a cluster of 65 in the tenth inning and ran 48 unfinished in the eleventh and final inning. His average was 45.2-11.

Cardinals and Yanks
After Catcher Blott
Of Michigan Team

By the Associated Press.
YOUNGSTOWN, O., April 10.

THE New York Yankees and St. Louis Cardinals are after Jack Blott, University of Michigan captain and catcher, after he graduates in June, according to word received from his home in Girard today. He also is reported to have received an offer from Miami University to coach football.

and the balls are in good position for him when he resumes today.

Horemans could run no more than nine in one inning and five of the 10 times he took the table he failed to score at all. His average, amazingly, was 16.2. The summary:

HOPPE: 8, 3, 176, 115, 9, 11, 34, 32, 13, 65, 48—500.

HOREMANS: 1, 0, 1, 2, 9, 0, 0, 2, 0, 0—16.

CITY CLUB ENTERTAINS

BROWNS AND CARDINALS

Immediately following their arrival in St. Louis tomorrow morning from their respective spring training camps, members of the Browns and Cardinals, led by Managers Sisler and Rickley, will visit the new City Club Building, Eleventh and Locust streets, for luncheon as guests of the club.

Both Sisler and Rickley will address members of the club and guests in the club auditorium, following the luncheon, which will take place in the dining rooms being temporarily used by members in lieu of the completion of the main dining room on the fifteenth floor.

George B. Logan, president of the City Club, will preside.

Guests of the Night.

Both the Browns and the Cardinals have been invited to attend the Saturday evening show at the Rialto theater as the guests of the management.

Johnson Beats Zamzow.

Johnson defeated Zamzow, 50 to 14, in 31 innings in the city three-day exhibition championship tournament at Peterson's yesterday. The winner had a high run of six and the loser one of four. Kirk and West are scheduled to play tonight.

MEDITATIONS —OF A— MARRIED WOMAN

By HELEN ROWLAND

"PEP."

THIS is the age of the great god "PEP."

"Pep" is our slogan, our fetish, our ruling passion!

We eat things for "pep," we drink to get "pep," we pray for "pep."

Father takes his tonic and his golf in order that he may have more "pep."

Mother takes her cold plunge and her esthetic dancing in order to "pump up her pep."

The "debby" skates, skis, rides, drives, golfs and jizzes until she is ready to stagger to a padded cell in the mad pursuit of "pep."

A book must have "pep," a play must have "pep," every poem or a sermon must have "pep!"

And, if a GIRL hasn't "pep"—O suffering soul-mates!—let her get her to a runnery! For though she have the beauty of Helen, the charm of Circe and the genius of Mrs. Rohrer, what shall they avail her?

That is why the chafing-dish has been shelved for the cocktail shaker, the broomstick has given place to the swagger-stick, and the hand that used to rock the cradle now jangles a lot of glittering bangles and grips the back of the masculine coat collar.

"Pep" is taking the place of personality, and all women are becoming like flivvers—they make a lot of noise and go with jolts and shivers.

By the time a girl has pepped along for a few years, she is all "pepped out" and ready for the discard like last year's Christmas tinsel.

And sometimes I wonder what it is all about, and if men really DO years for all this one-half-of-one-per-cent imitation "pep."

Aren't all these little imitation "peppers" giving men "that tired feeling"?

For REAL "pep," like genius, must be born in you and cannot be put on like rouge. It is not a matter of perpetual motion, jazz, hysteria and popular slang. It is not even low-clothes visibility and high kissing power. It is not the glitter in the eyes but the torch shining BACK of the eyes!

No man wants it every day, hour and minute. He may demand "pep" on Saturday evening, but most of the rest of the week he longs for a nice soothing, subtle bromide, to REST him—a woman with repose and sympathy and understanding.

"Pep" is aliveness, responsiveness, enthusiasm, *foi de vivre*, mental champagne! And, like all champagne, it is exhilarating now and then—but a terrible thing as a steady diet.

And now, as always, "the only woman in the world" for any man is the one who is a RELIEF from all other women!

NUTS FLAVOR THE DIET

By HANNAH WING

NUTS are a food whose flavor is enjoyed by most people, but cooking of the present day seems to offer little opportunity for their use. Why this should be the case is puzzling when one considers their worth as a concentrated food, rich in vegetable protein and fat, and many ways in which nuts may be used in combination with other foods. For value received they are even less expensive than many other foods now considered cheap.

Unfortunately a fallacy about the digestibility of nuts seems to exist. The truth is that nuts are easily and fairly completely digested if well masticated and eaten as a part of the regular meal. They are rather too concentrated a food to be eaten in any quantity between meals.

The chestnut alone, because of its starch, requires cooking before it is used. All other nuts are ready for use without cooking, but should be finely ground. When nuts are used as the protein dish of a Lenten or other meatless meal they may form the main ingredient of nut loaves or croquettes.

Finely ground peanuts with cottage cheese, walnuts and American cheese or nuts and celery held together with potato, bread crumbs or cooked cereal and an egg make a delicious luncheon or supper dish served with a savory sauce.

Chestnuts cooked and rubbed through a sieve are an excellent stuffing for fowl or game. If the sieved chestnuts are cooked in syrup they form a rich accompaniment for a plain dessert or blanc mange or fruit. Glaced chestnuts are one of the greatest delicacies in the confectionery line.

Nuts have another wide sphere of usefulness in salads with cheese or fruit. A most pleasing salad may be made from cut tomato, pineapple and ground nuts served in tomato shells.

Added to either quick or yeast bread, tea biscuit or muffins, nuts add flavor and richness.

In cakes they are used both in the loaf and in fillings with raisins, figs, dates or coconut. These nut fillings may also be used in tarts or other pastries. A simple cream pie becomes a luxurious dessert if a cup of finely ground nuts are stirred into the filling and a few sprinkled over the top of the pie instead of a meringue.

THE REVELATIONS OF A PAID COMPANION

By JANE PHELPS

"Author of 'My Husband and I,' 'A Wife's Story,' etc.

Chapter LVII.

LAUREL REFUSES TO SEE MOLLIE.

THE days following Mollie's accident were busy ones for me. Constant inquiries, both by telephone and in person, flowers and the like, gave me no moment's idleness. An account of the accident had somehow gotten into the papers and had hastened Mr. Ellwood's return.

Jim Worthing had been confined to the house for several days; his bruises, of which he made so light, had caused him much pain and stiffness. He, too, was under Dr. Millbank's care. The man taken to the hospital had died, but Jim had been entirely exonerated from blame because of the man's car having no tail light.

Laurel had reacted in a strange way. All her softness, her meekness had left her. She was hard, bitter. Jim might have been killed, and it would have been Mollie's fault. She accepted Mollie's explanation that it was all her fault literally. She had urged Jim to be reckless, had insisted upon driving too fast for safety. She had asked Jim to ride with her, had refused to return with Larry Ward.

Laurel had not once entered Mollie's room after the night she was injured. When Mollie asked for her I told her Laurel had been so frightened she was ill. It was the truth. Never had I seen any one look as Laurel did. White as chalk, yet hard and unfeeling, she moved about like a shadow. She took her meals in her own room, even after Jim hobbled down to the table.

I knew Mr. Ellwood was puzzled at her actions, that he mistrusted something beyond physical weakness, and I had all I could do to quiet his suspicions. He had been terribly upset over Mollie, had worried over her, fearful she might be hurt internally, even though the doctor assured him this was not so.

"It would be more than I could bear, to lose her," he said to me. Mollie fretted over her long confinement, and I had no further cause to think I did not earn my salary. As she became able to sit up, her young friends relieved me; yet she was often impatient and retarded her recovery by doing foolish things.

THE RHYMING OPTIMIST

By Aline Michaelis

Gentle Spring.

ID like to sing in praise of Spring, then why do I delay? So many birds write yards and yards about the joyous May. The same old rhymes so many times have figured every year. I hesitate to celebrate, although gay spring is near. It's my desire to twang my lyre and mention violets; and yet, no doubt, if carried out, this scheme would cause regrets. Too many men with tongue and pen have fashioned springtime stuff, and folks might read my tender screed when winds blow wild and rough; when springtime's gale swept hill and dale and springtime's ice was cold, too off they've heard of singing birds and nuns and marigolds. My impulse now is to avoid the loveliness of spring; to name her Queen of all the scene and sounding carols ring. I'd speak of hills and rippling rills bedecked in garments gay of grazing herds and mating birds I'd chant a roundelay. And yet, suppose the rills all froze before my verse came out, suppose the birds and sunny gales were everywhere about? Sup-

HOW IT STARTED

"GOTHAM."

THE term "Gotham" is familiar particularly as a nickname for New York City. However, it has come to be used as almost a synonym for "the big city," the implication being a place whose inhabitants make great pretenses to wisdom.

The original "Gotham" was a village in Nottinghamshire, England, and it is from an old story about the inhabitants of this village, published in a humorous book called "Salmagundi" which was written by Washington Irving, his brother, William, and James K. Paulding, that the term came into use as the proverbial home of fools and a nickname for the big city.

According to the story, King John was about to pass through Gotham toward Nottingham when he was prevented by the inhabitants, who feared the saying that the ground over which a King passed became a public road. When the King sent somebody to punish them, they ingeniously tried to avert his wrath by appearing before him emissaries each engaged in some childish or foolish occupation, so that the messenger, returning to the King, reported that Gotham was a village of fools.

Sure Way to Get Rid of Dandruff

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to comb or wash it out. The only sure way to get rid of dandruff is to dissolve it; then, you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most, if not all, of your dandruff will be gone, and two or three more applications will completely dissolve and entirely destroy every single sign and trace of it. You will find, too, that all itching and digging of the scalp will stop.

and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. Four ounces is all you will need, no matter how much dandruff you may have. This simple remedy never fails.

Children's Bedtime Story

Sammy Jay Sees Two Bluffers

When bluff meets bluff, then neither wins; The matter ends where it begins.

—Farmer Brown's Boy.

FOR a few minutes there were four badly scared people in the Green Forest. They were Buster Bear's triplets and Farmer Brown's Boy. But the latter was frightened only for a few minutes. You see, he had known that those young Bears were somewhere about, for he had been following their footprints in the snow. He wouldn't have been frightened at all had it not been for the unexpected meeting with them. He had hoped to get within sight of them, but he hadn't expected to come face to face with one of them as he had when he came around the upturned roots of a great fallen tree. He had been so startled that he had yelled.

But the young Bears had received the greatest fright of their lives. They hadn't known that Farmer Brown's Boy was following them or was anywhere near. They had been frightened almost out of their wits when he yelled. They had promptly done the thing they had been taught to do in time of danger when they were very little—scramble up a tree. They had all chosen the same tree, and the way they had scrambled up, getting in each other's way and bawling as they climbed, had been one of the funniest sights Farmer Brown's Boy and Sammy Jay had ever seen.

Farmer Brown's Boy was no longer frightened. He began to laugh. He laughed and laughed, for those three young Bears were a funny sight as they clung to the tree as high up in it as they could climb and whimpered.

But Farmer Brown's Boy's

Those three young Bears were a funny sight as they clung to the tree.

laugh didn't last long. In fact, it was cut off so suddenly that it almost choked him. Without any warning at all, there was a terrible "Woof, woof, woof!" and out of a thicket rushed a great Bear with the wickedest-looking eyes and the most awful-looking teeth and with the most terrible-sounding voice. To Farmer Brown's Boy's startled eyes that Bear looked to be twice as big as the biggest Bear he had ever seen. It was Mother Bear.

Straight at Farmer Brown's Boy she rushed, snapping her jaws and making a terrible noise. For a second or two he was too frightened to move. Then he realized that if he turned to run Mother Bear would know that he was afraid and would be on his track before he could go more than a few steps. So he did the wisest thing he could have done—he stood perfectly still.

How to Prepare Sunday Dinners That Spell Spring

By JEANETTE YOUNG NORTON. Authority on Home Cooking

SPRING foods like Spring fashions come into being with the first warm days.

Suppose we choose the following menus for Sunday dinners preceding the Easter season.

MENU.

- Clam Bisque
- Broiled Shad
- Fried Roast
- Baked Potatoes
- Peas
- Rolls
- Mint Jelly
- Asparagus
- Butter Sauce
- Watercress Salad
- Rhubarb Pie
- Coffee.

The easiest way to make the clam bisque is to take one dozen and a half hard clams and after scrubbing well steam them by pouring a cupful of water over the shells and covering the kettle until all the shells are open. Then remove the clams and chop them coarsely and strain the juice. Pour the juice into a quart of hot milk, to which a half saltspoonful of bicarbonate of soda has been added.

Now add a generous lump of butter and a little pepper, then thicken with white roux to the consistency of cold honey and add the clams. After cleaning the shad, spread on a well-buttered griddle and broil over the coals, or under the gas broiler. Slip the fish on a hot dish, dust with pepper and salt and dot with butter, garnish with fresh cream and lemon quarters. Take the fish rose and put it on to cook in cold salted water and when it begins to boil cook eight minutes, drain and fry in hot fat.

For the pie cut up in short lengths enough fresh rhubarb to make three heaping cupfuls. Plunge the rhubarb into boiling water and boil up once, then drain. Line the pie plate with good crust put in the rhubarb and add a cupful of sugar, and three tablespoonfuls of honey, put on the top crust and bake as usual.

Almost always this difficulty is due to eye-strain and the need of glasses.

Meddling Mothers-in-Law

By SOPHIE IRENE LOEB

JUST so often communications come to me from unhappy wives who are still suffering under the persecutions of mean mothers-in-law.

SOPHIE IRENE LOEB

Many times in these columns I have advanced the belief that mothers-in-law "day by day, in every way, are getting better and better."

And I am of the opinion that as a general thing women who have married children are beginning to think more justly as to their relationship; that is, the average mother-in-law today is profiting by the experience of her predecessor who meddled too much and caused a great deal of trouble.

In years gone by, when the individual was more closely regarded in connection with the family, the mother-in-law assumed that she still owned her male offspring after he had taken another woman whom he had promised to honor and obey. She rarely realized that she had actually lost much of the possessive right that she had when he or she was single.

Many mothers in these days made life a misery for the young man who had supplanted her in the affections of her son, to which she still clung—undeservedly or otherwise.

But civilization has moved on, and while there are still no place like home there are many things to attract young people outside of it, and the mother-in-law has changed with the times. She looks upon her married children as she should—as entitled to living their own lives and go their own ways with as little interference from her as possible.

be quartered, placed in a buttered baking dish dusted with pepper, salt and sugar, dotted with butter and a little honey poured over all and browned in the oven.

The sweetbreads—one or two pairs—should be par-boiled in salted water 20 minutes then plunged into cold water, trimmed and sliced in thick slices. Make a rich cream sauce not too thick. Add a chopped hard-boiled egg, a teaspoonful of onion juice, and a quarter-pound of mushrooms that have been sautéed in butter. The boiled asparagus is to be drained, then placed on a buttered dish, dusted with pepper, salt and grated cheese, then placed in the oven long enough to melt and brown lightly.

Line the pie plate with short crust. Beat the yolks of four eggs and the white of one, add a cupful of sugar and the juice of one large lemon and a little grated rind, mix a cupful of milk and a tablespoonful of flour, strain into the lemon and pour into the crust. Bake 20 minutes. Cover with meringue.

I repeat, I believe this is the general attitude of the right-thinking woman of today. From all indications it seems to me that at any rate, she doesn't manifest her feelings overmuch or intrude unduly, and it is a very sensible woman who 39 times out of a hundred will let the young people fight it out themselves and mind her own business.

But there does come to notice the occasional old-time variety of mother-in-law who still feels she occupies a superior plane, and refuses to relinquish it.

Such a one is pictured in a very distressing letter that comes to me from a woman who really helped to "make" her husband here—years after she was married she kept the same position she held before she was wed and thus helped to add to the bank account.

After a marriage of 10 years she finds her husband's mind has been slowly poisoned against her by her mother-in-law, who even tries to influence her little boy, the grandchild.

When, oh, when, will women understand that the finest thing they can do in life is to encourage the daughter or the son to be faithful to the life partner no matter what their personal feelings are?

The world would be a much better place in which to live if the heartaches and hardships that have been engendered by mothers-in-law could be eliminated.

And I regret indeed, that this malady of meddling is strictly one confined to our sex. It is not often you hear of the over-interfering father-in-law. Most of the time he holds his peace.

To such mothers-in-law I would say, if you can't love your daughter-in-law, or son-in-law, at least try to love a sense of justice and fair play. Perhaps you will make yourself feel a whole lot better if you have shown a little spark of bigness of spirit in squelching your own desires in an effort to keep harmony in homes that would get along better if you gave them half a chance.

MARY E. HEWITT.

MARY E. HEWITT was born in Malden, Mass. Her maiden name was Moore. Her mother, early left a widow, removed to Boston, where her daughter met and married James L. Hewitt, removing then to New York City. In 1845 Mrs. Hewitt published a small volume of poems selected from her contributions to various magazines, entitled "Songs of Our Land," which had previously appeared under the signature of "June," her nom de plume.

The theme is carried out gracefully and harmoniously, bearing the stamp of truth and originality. In 1850 Mrs. Hewitt edited a gift book called the "Gem of the Western World," and the "Memorial," a beautiful tribute to the memory of her friend, Mrs. Frances S. Osgood.

YOU AND YOUR CHILDREN

By Wm. A. McKeever

"WHY do my youthful children—boy 16 and girl 14—resent everything I try to teach them and prefer to take the advice of the young, wild crowd?"

The situation is common everywhere. This mother is but expressing the anxiety—more or less deep—now disturbing the mind of the typical parent of the middle-aged child. Young nature calls for wild, free life with a low interest in learning. Mature parenthood calls for work, sobriety and forward-looking.

It is the lack of knowledge of the parent that is at fault here—failure to appreciate the normal interest and point of view of youth. Out of the misunderstanding develops the clash of minds and the conflicts of opinions which often remain permanent. What is to be done about the typical quarrel everywhere going on between parents and their youthful children? Must they remain hopelessly apart?

The answer is easy. Learn to see the world from your child's point of view. Understand that his interest in moral conduct, in serious study of his lessons and in the choice of a life purpose is all now at a low ebb—and treat him accordingly.

It is not merely the resentment of what you teach, but the likelihood of a permanent disregard for the sound ideals which you

NOTES ABOUT WOMEN

Allen County, O., has three women Constables.

One out of every five women in Pennsylvania is employed.

All in all, there are 15,000,000 more women than men in Europe.

Every municipal office in Columbus Junction, Ia., is held by a woman.

Every seventh woman in Ger-

Miss Florence M. Poley of Cleveland, first woman to be elected a member of the American Association of Engineers, is a civil engineer for the Nickel Plate Railroad.

are probably trying to force the fruit ahead of the bud and the blossom. Think what violence that must lead to in any field of nature.

Your child is only contending against your encroachments upon his natural rights when he resents your admonitions as to "good moral character" and "an honorable and successful career." At present those high-sounding phrases are but a noise and an offense to him—and he is more nearly right than you are.

Mark this as a rule: Your child ceases to learn from you the moment he begins systematically to resent and resist your teachings; and he will thereupon vow to hate what you urge him to love. If "the preacher's boy is proverbially bad" it is because of the very fault against which I am here warning parents—too much and too early enforcement of unsought and undesired goodness.

HOUSEHOLD SUGGESTIONS

Just Gather It Up.

If a newspaper is spread under the table on which the food chopper is screwed, all spilled bits may be picked up at one time and saved for labor and floor.

Fried Onions.

A lid over the saucepan when frying onions will keep in the steam and cause them to cook more quickly. It also keeps the odor a trifle more concealed.

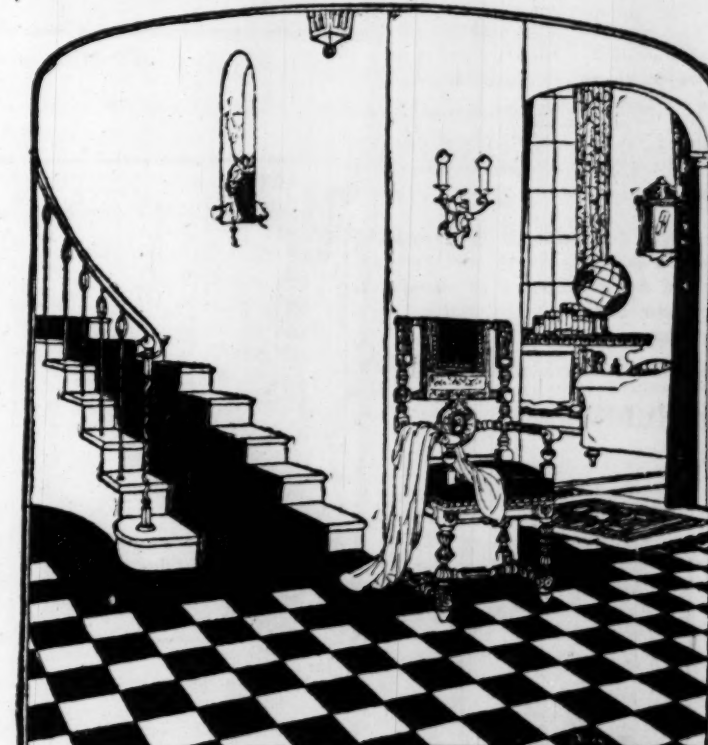

Scratched Mahogany.

If you should find some nasty scratches on the mahogany furniture, paint them with iodine, very lightly, and then touch them with colorless shoe polish. It will cause the ugly scratches to vanish.

GRITS PUDDING.

Cook down well three cupfuls of wheaten grits and add to them a cupful each of chopped, seeded raisins and nuts chopped fine, a tablespoonful of butter, half teaspoonful of mixed spices, a half gill of honey, a half gill of heavy maple syrup and a dessertspoonful of vanilla. Stir the pudding well and pour it into a buttered mould to cool and set. When it is chilled and firm, unmould it on a dish and cut in thick slices. Serve the pudding with whipped cream or fruit juice. It is a simple and easily-made dessert.

Floors of Color—Floors of Charm

IN any plan of decoration, floors simply refuse to be ignored. So when you start to decorate a room, you must begin with the floor. If you don't, you will end up with the floor on your hands—and no idea what to do about it.

Haven't you seen rooms where the yellow wood floors simply spoiled the color scheme? Here is where the new linoleum is so helpful. There are so many colors and designs to choose from, that you can build your color scheme, as you should, from the floor itself, and thus make sure that your room will be a harmonious unit—floor, walls, furnishings, and all.

Laying linoleum for permanency. A good inlaid linoleum, cemented in place over a lining of builders' deadening felt, makes a permanent floor. It never requires refinishing, and needs only an occasional waxing and polishing to keep it growing better and better looking with the passing years.

Not only does the floor of Armstrong's Linoleum solve a problem in home decoration. It lightens housekeeping. Any woman who has had

any experience with a waxed and polished linoleum floor knows how easy it is to keep clean. Scrubbing is unnecessary. Dust and dirt brush right up. Floors of linoleum are quiet and restful to walk on. You place your rugs on linoleum, just as you do on any other floor.

Good furniture and department stores recommend Armstrong's Linoleum and will gladly show you the modern designs and colorings to harmonize with your walls, rugs, furniture, and draperies. Many of these stores make a specialty of good linoleum laying. You may write to our Bureau of Interior Decoration for special advice, and receive a reply from an experienced decorator who will help you plan color schemes for an entire house or a particular room. This service is entirely free.

Write for free sample and booklet.

Let us send you a sample of Armstrong's Linoleum and a copy of our 24-page booklet, "New Floors for Old." The booklet contains a score of colorplates of Armstrong's Linoleum, showing Jaspés, tile inlaid, marble tile and patterned patterns, readily obtainable at most good stores; also information on laying linoleum and on how to care for your linoleum floors, together with names of merchants in your city who handle Armstrong's Linoleum.

PRESIDENT
EXPERTS' REPORT
REPARATIONS
BY THE COMMISSION

Recommendations Accepted Generally
Unanimously Conditional
on Acceptance by Germany, Whose Representatives Will Be Heard
Next Thursday.

POINCARÉ FAVORS
A QUICK SANCTION

Willingness to End Exploitation of Ruhr Indicated
—Interest in Paris Centers in Powers of Reparation Agent.

By the Associated Press.
PARIS, April 11.—The Reparation Commission today officially approved the report submitted to it by the experts' committee Wednesday on the German reparations question.

The recommendation of the commission is that the report be approved conditional upon the acceptance of it by Germany. The commission was unanimous in registering its approval.

The decision, says a Havas statement, was that the report offered a practicable basis for the settlement of the reparations problem. The Reparation Commission will hear the German representatives regarding the report on Thursday, April 17. An official declaration by the commission signed by Louis Barthou, its president, accepting the experts' report, was issued this evening.

Statement by Commission.
Following is the statement issued by the reparations commission:

"The Reparation Commission, presided over by M. Barthou, unanimously adopted the following:—The Reparation Commission, having taken cognizance of the experts' reports, consider they offer a practical basis for a rapid solution of the reparations problem. Thus the commission disposes without delay, and within the limits of its powers, approves of the conclusions and adopts the methods thereof.

In order to facilitate and hasten the putting into execution of the experts' program, the commission proposes to recommend that the Governments interested in the conclusions in these reports adopt the conclusions thereof immediately. The Reparation Commission, however, is placed under the obligation of reserving this appropriation and these initiatives until such time as the Government of the Reich is ready to ensure its collaboration to the experts' program.

To this purpose the commission will hear on Thursday, April 17, the delegates of the German Government, unless that Government prefers sending a written reply."

PARIS, April 11.—France apparently has decided to accept the experts' report on reparations. She thus indicates a willingness to give up exploitation of the Ruhr. At the moment the Duval plan goes into effect, there is no official statement to that effect, but public opinion is being prepared.

France wants first to see what action Germany will take and what chances the reparations loan has. America. One hundred million of francs, half the total of the loan, the portion hoped for from the United States.

The experts would like to see rapid action on the report and the loan. They fear something may happen to the rearmament act is delayed until after the German and French elections in month, and their plan is based on the German situation as it is today.
